Overview:

Logitech G325 LIGHTSPEED Wireless Gaming Headset - Black

Experience the sound of every game with the Logitech G325 LIGHTSPEED Wireless Gaming Headset. Designed for gamers who want reliable wireless performance, immersive 24-bit audio, and lasting comfort, the G325 combines lightweight construction with modern connectivity. Featuring a built-in beamforming microphone, Bluetooth 5.2 support, and Logitech LIGHTSPEED wireless technology, this headset keeps you connected whether you're gaming at home or on the move. With more than 24 hours of battery life and an operating range of up to 30 metres, you can focus on your game without interruptions.

Description:

The Logitech G325 LIGHTSPEED Wireless Gaming Headset delivers high-quality wireless audio for gaming, streaming, voice chat, and entertainment. Its lightweight 212 g design, breathable materials, memory foam ear cushions, and adjustable fit provide long-lasting comfort, while the AI-enhanced beamforming microphone ensures your voice remains clear during multiplayer sessions. Dual wireless connectivity through LIGHTSPEED USB and Bluetooth 5.2 offers flexibility across PCs, gaming handhelds, and compatible mobile devices.

Features:

Designed for Wireless Gaming Freedom

Logitech LIGHTSPEED wireless technology delivers a responsive, low-latency connection that helps you stay focused on gameplay. With a wireless range of up to 30 metres, you have the freedom to move around without losing your connection.

Bluetooth 5.2 support adds even greater versatility, allowing you to pair the headset with compatible mobile devices and gaming handhelds for voice chat, music, mobile gaming, and everyday listening.

Immersive Audio Performance

Enjoy detailed 24-bit dynamic audio with enhanced bass that brings games, movies, and music to life. The tuned 32 mm drivers deliver clear sound reproduction, helping you hear everything from subtle environmental effects to intense action sequences.

Whether you're exploring open worlds or competing online, the G325 is designed to provide an engaging listening experience.

Clear Communication with AI Noise Reduction

ComX Computers

Product Specification Sheet

The integrated beamforming microphone uses AI-powered noise reduction technology to minimise unwanted background sounds such as keyboard typing and cooling fans. Your teammates hear your voice more clearly, making communication during multiplayer games more effective.

The boomless microphone design also gives the headset a cleaner, more streamlined appearance for everyday use.

Comfort for Long Gaming Sessions

Weighing only 212 g, the Logitech G325 is built for extended wear. Breathable knit fabric, a soft padded headband, and dual-layer memory foam ear cushions help reduce pressure and improve comfort throughout long gaming sessions.

The modern design also makes it suitable for casual listening away from your gaming setup.

Customise Your Audio Experience

Using Logitech G HUB software or the Logitech G mobile app, you can personalise your sound profile with ready-made audio presets or create custom EQ settings to match your favourite games and entertainment.

Key Highlights

- Logitech LIGHTSPEED low-latency wireless technology
