LOG-G400S

Logitech G400S black & blue Gaming Mouse

Product Overview

Logitech 910-003426 G400S black & blue Gaming Mouse - 5.8mp/sec, Max. Acceleration: 25G, speed 70-140iPS, 1000hz ultra pooling, adjustable 200->4000dpi optical engine, hydrophobic coating in the palm area, low-friction polytetrafluoroethylene feet, sculpted comfort grip, 8x programmable buttons, with 4-way tilt wheel + zoom - USB

Specifications

Overview:

G400s features exclusive Delta Zero sensor optimizations for high-accuracy cursor control. We applied specialized materials to each zone for improved comfort, control and durability. Mechanical microswitches are rated to a 20 million click lifespan. Low-friction polytetrafluoroethylene feet are tested to last an amazing 250 km.

Features:

Accuracy is everything
Building on the powerful legacy of MX518 and G400, G400s features exclusive Delta Zero sensor optimizations for high-accuracy cursor control. Whether flying across the screen or honing in on one pixel, the 4000 DPI sensor responds accurately to your hand movements. The LED-illuminated sensor is designed to go beyond simple eye/hand coordination, diminishing the thinking required to move your character, adjust your scope for sniping, select RTS units, or direct MOBA skill shots.

A difference you can feel
We used infrared imaging to determine strategic tactile zones where your hand touches the mouse surface. We applied specialized materials to each zone for improved comfort, control and durability. The hydrophobic coating on the palm area helps prevent your hand from sticking. For heavy contact zones, we added fingerprint-resistant coatings on the primary buttons. And, soft grips on the sides maintain comfort through long hours of use.

Goes the distance, and then some
Gaming conditions torture typical mice. G400s is designed to endure. Upgraded primary mechanical microswitches are rated to a 20 million click lifespan. Low-friction polytetrafluoroethylene feet are tested to last an amazing 250 km. Whatever you can dish out, G400s will stand up to it.

Be ready in an instant
Make the right moves in any game situation. Shift through multiple DPI settings for quickly selecting on-screen options or scanning the game map (up to 4000 DPI) or downshifting to make pixel-precise sniper targeting or unit selection (200 DPI) using dedicated buttons conveniently located above and below the scroll wheel.

At your command
Achieve great results with the default configuration straight out of the box. Or, set up one-button triggers for actions that typically require digging into menus. Put push-to-talk communications in easier reach. Temporarily down-shift DPI. Reassign any game command or multi-command macro to any one of eight programmable buttons with optional Logitech Gaming Software (LGS).

Comfort is king
Maintaining the classic MX518 shape, G400s offers a naturally contoured grip designed for maximum comfort through long gaming sessions. In the end, you'll always be the last gamer standing.

Thought and action unite
Be confident that your every command is executed as fast as possible. Up to eight times faster than a standard USB mouse, G400s captures your moves as fast as you can make them.

A material advantage
Low-friction polytetrafluoroethylene feet reduce drag for faster motions, smoother cursor movements, and improved accuracy.

Make it yours-simply
Use the optional Logitech Gaming Software to perfectly match its commands to your favorite games. Simple drag-and-drop

settings allow you to customize button and tracking profiles for any game you play. Or, use pre-configured customizations with automatic game detection.

System Requirements:

- Windows® 8, Windows® 7, or Windows® Vista
- USB port
- Internet connection for optional software download

Specifications	
Product Code	LOG-G400S
Durability	
Buttons (Left / Right / Third)	20 million clicks
Feet	250 kilometers
Tracking	
Resolution	200 - 4000 dots per inch (dpi)
Image processing	5.8 megapixels/second
Max. acceleration	25G
Max. speed	up to 70-140 inches (4.06 meters)/second
Responsiveness	
USB report rate	Up to 1000 reports/second
Sleep mode	disabled
Glide	
Dynamic coefficient of friction	.09 µ (k)
Static coefficient of friction	.14 µ (s)
Total weight	133 grams
Cord	15 grams
