Logitech H540 Black Headset with microphone

Product Overview

Logitech Headset H540 USB Headset Laser Tuned Drivers Comfortable Padding On Ear Audio Controls Plug & Play

Specifications

Overview:

Plug into high-performance audio for PC calls, music and more. A high-quality, high-performance headset that brings your PC calls and music to life.

Features:

Rich Stereo Sound
Laser-tuned drivers and a built-in EQ deliver superior, unrivaled audio quality and rich bass-so you can maximize your listening experience.

On-Ear Controls
Enjoy volume and bass level control, as well as the ability to instantly mute the mic-all at your fingertips.

Comfortable Design

Soft leatherette padded headband and earcups allow you to talk or listen in comfort, for hours on end.

As simple as plug-and-play
With the plug-and-play USB connection, you'll experience crisp, digital stereo and more true-to-life calls almost instantaneously.

Listen to the details
Laser-tuned drivers and a built-in equalizer minimize distortion, so you can get to the heart of all your music, movies and calling. It's the kind of precision audio that exemplifies the difference between merely hearing and truly wanting to listen.

Experience crystal-clear chatting
Breathe new life into your chatting. The adjustable microphone reduces background noises, so your friends, family and business associates can hear more of what they want-your crystal clear voice.

Take control of the sound
Use the on-ear controls for simple volume adjusting and instant mic muting. Plus, you'll never talk with the mute on again, thanks to the easy-to-see mute indicator light.

It's all about comfort
Soft leatherette padding is easy on your ears-especially when you're listening to music or chatting for hours. Worried about the fit? Don't be. The padding on the headband ensures a fit that molds comfortably to the contours of your head.

Plays nice
Works with games, movies, music, and common calling applications including Skype, Yahoo! Messenger, Gmail Voice & Video Chat, and Windows Live Messenger.
