Specifications

About this product

The Logitech MK220 Wireless Keyboard and Mouse Combo delivers reliable 2.4GHz wireless connectivity in an ultra compact design that saves valuable desk space while retaining a full typing experience. Featuring 128-bit AES wireless encryption, comfortable low profile keys, enhanced function keys, and a compact optical mouse, this USB keyboard and mouse combo is ideal for home, office, and everyday computing. Buy now from our website for quick delivery in South Africa and enjoy dependable wireless productivity.

Overview Summary

Logitech MK220 Wireless Keyboard and Mouse Combo - Black

The Logitech MK220 combines an ultra compact keyboard with a comfortable wireless mouse to create a space saving desktop solution. The keyboard is approximately 36 percent smaller than standard keyboards while still including all essential keys, making it suitable for desks where space is limited.

Using a reliable 2.4GHz wireless connection through a single USB nano receiver, the MK220 provides dependable performance with a wireless range of up to 10 metres. Built with 128-bit AES wireless encryption, it helps keep keyboard data secure during transmission. Long battery life, enhanced function keys, and plug and play installation make it an excellent choice for everyday home and office users.

Performance tier: Entry-level wireless productivity

Uses: Home computing, office work, remote work, education, internet browsing, document editing, general productivity

Description

The Logitech MK220 Wireless Keyboard and Mouse Combo is designed for users who need a reliable wireless desktop solution without occupying unnecessary desk space. Its compact keyboard layout reduces its overall footprint while maintaining familiar key placement for comfortable typing during everyday tasks.

The included wireless optical mouse provides smooth cursor control for browsing, office applications, and general computing. Both devices communicate through a single USB nano receiver using Logitech's reliable 2.4GHz wireless technology, allowing a clean workspace with fewer cables.

Security is enhanced through 128-bit AES wireless encryption to help protect keyboard data during wireless transmission. Long battery life reduces maintenance, while plug and play USB installation allows quick setup without complicated configuration.

Features

The Logitech MK220 is built to provide dependable wireless performance with a compact footprint suitable for both home and office environments.

- Ultra compact keyboard design saves desk space.
- Reliable 2.4GHz wireless connection.
- USB nano receiver for simple plug and play installation.
- 128-bit AES wireless encryption for secure keyboard communication.
- Comfortable optical mouse included.
- Enhanced function keys for quick access to common functions.
- Wireless operating range of up to 10 metres.
- Long battery life for keyboard and mouse.
- Full size typing experience in a smaller keyboard layout.
- Compatible with Windows, ChromeOS, and Linux systems that support USB keyboards and mice.

SPACE-SAVING KEYBOARD
With a compact design, this keyboard features all the keys you need, including a number pad while being smaller than a

full-size keyboard. Perfect for tight workspaces, or smaller frames, so you can place your mouse closer for less reaching and better body posture. Plus, it's easy to move anywhere your work takes you.

PORTABLE, AMBIDEXTROUS MOUSE
This compact, portable mouse delivers smooth, accurate tracking, and line-by-line scrolling. The comfortable shape works for both left- and right-handed users, making it easy to use and take with you anywhere.

QUALITY YOU CAN RELY ON
This combo is built with the same high quality standards that have made Logitech the global leader for mice and keyboards. The keyboard is ready to withstand on-the-job use and mishaps thanks to the spill-resistant design.

BUILT TO KEEP GOING
Efficient power use means you can go 24 months for the keyboard and 12 months for the mouse-without the hassle of changing batteries thanks to the power-saving technology.

DECADES OF DESIGN EXPERTISE
With more than 22 years experience designing high-quality keyboards and mice, we carefully design, develop, prototype, and study all the essential components of our devices, from the core technologies to the comfort and ergonomics of their design. We strive to provide each individual with their ideal typing and navigation experience, according to their stature, lifestyle and deskspace.

High Performance. Engineered Responsibly.
We engineer our products for speed, precision, and high performance, all while considering sustainability as a key criteria throughout every stage of the product development process

What's in the Box

- 1 x Logitech MK220 wireless keyboard
- 1 x Logitech wireless optical mouse
- 1 x USB nano receiver
- Keyboard batteries
- Mouse batteries
- User documentation

FAQ

What is the Logitech MK220 designed for?

The Logitech MK220 is designed for everyday home, office, education, and productivity tasks where a compact wireless keyboard and mouse are preferred. Its space saving design makes it suitable for desks with limited space while maintaining comfortable typing and navigation.

Does the Logitech MK220 use Bluetooth?

No. The MK220 uses Logitech's 2.4GHz wireless technology through the included USB nano receiver. The receiver must be connected to an available USB port for both the keyboard and mouse to operate.

Is the keyboard secure for wireless use?

Yes. The keyboard supports 128-bit AES wireless encryption. This helps protect keyboard data transmitted between the keyboard and USB receiver.

How far can the keyboard and mouse operate?

The Logitech MK220 has a wireless operating range of up to 10 metres under normal conditions. Actual range may vary depending on the environment and nearby wireless interference.

Is the MK220 suitable for office work?

Yes. The MK220 is well suited for document editing, spreadsheets, email, internet browsing, and general office productivity. Its compact size also helps maximise available desk space.
