Specifications

About this product

Buy the Aavara A6041 wall mount LCD and plasma arm with heavy duty aluminum alloy construction, designed for secure and flexible TV mounting in home or commercial environments. Featuring a 4 arm structure with multi pivot adjustment, tilt and swivel control, ExperTorque stability, and smart cable management, this bracket delivers reliable support for screens up to 52 inches and 50kg. Shop now for a safe and adjustable mounting solution for your display setup.

Overview Summary

The Aavara A6041 Wall Mount LCD Plasma Arm is a premium heavy duty mounting solution designed for maximum flexibility and stability. Built from durable aluminum alloy, it supports large flat panel displays while maintaining smooth adjustability for optimal viewing angles.

This wall mount features a 4 arm system with 5 joint pivot points, allowing extended reach and precise positioning. With +/-15 degree tilt and +/-60 degree swivel, it ensures comfortable viewing from multiple angles, making it ideal for both residential and professional installations.

Engineered with ExperTorque technology and an automatic safety lock, the mount provides enhanced stability and secure holding strength. Integrated smart cable management keeps cables neatly organized for a clean and professional installation.

Performance tier:Heavy-duty professional

Uses:home theater TV mounting, office display installation, retail digital signage, conference room screens, commercial display setups

Description

The Aavara A6041 wall mount arm is designed for strength, flexibility, and long term durability. Its aluminum alloy frame

ComX Computers

Product Specification Sheet

provides a rigid mounting structure capable of supporting large displays up to 52 inches and 50kg. The multi joint arm system allows smooth extension and repositioning without compromising stability.

With integrated tilt and swivel functionality, users can adjust viewing angles to reduce glare and improve visibility in any room layout. The ExperTorque mechanism enhances controlled movement while the automatic safety lock ensures the screen remains securely fixed in position once adjusted.

This mount is suitable for a wide range of environments including home entertainment systems, boardrooms, retail displays, and professional installations where reliable and adaptable screen positioning is required.
