It supports max. mounting 400x400mm display and ExperTorque(TM) technology enables adjustment of the screens hinged by

its weight. Smart cable management system keeps messy cables in good order. Ultra Slim profile with Min. distance to Wall 35mm /1.38" giving you a deco. look without compromising on design.

Description

The Aavara AE444 wall mount is engineered to provide a professional and space-saving mounting solution for LCD and plasma displays. Its ultra slim profile allows the display to sit neatly against the wall while still offering the flexibility required for comfortable viewing from different positions within a room.

Built from high-quality aluminium alloy, the AE444 combines strength and durability with a modern appearance. The dual arm structure features 3 articulation joints that allow users to extend, retract, tilt, and swivel the display as required. This flexibility makes it suitable for living rooms, meeting rooms, offices, reception areas, retail environments, and digital signage installations.

The integrated ExperTorque technology helps provide smooth adjustment and positioning, while the automatic safety lock enhances security once the display is mounted. Smart cable management channels help organize power and signal cables for a cleaner installation. Supporting VESA mounting patterns up to 400 x 400mm, the AE444 is compatible with a wide range of flat panel displays up to 52 inches and weighing up to 35kg.
