Specifications

About this product

The Aavara APC210 Dual Arm Tablet Display Stand is a professional clamp-mounted tablet holder designed for retail counters, point of sale environments, kiosks, offices and public display applications. Supporting most 9 inch to 11 inch tablets including iPad series devices, it features dual articulated arms with three joints, a Tri-Security locking mechanism, 360 degree rotation, 230 degree arm swivel, 180 degree tilt adjustment and integrated cable management for a secure, flexible and professional installation. Buy now from our website for quick delivery in South Africa.

Overview Summary

Aavara APC210 Dual Arm Clamp Base Tablet Display Stand with Tri-Security Lock

The Aavara APC210 is engineered for secure commercial tablet installations where flexibility, durability and theft protection are essential. Its clamp base securely attaches to desks or counters while the dual arm design provides excellent positioning for customer interaction, digital signage, self-service kiosks and point of sale systems.

Designed for tablets between 9 inches and 11 inches, including compatible iPad models, the APC210 combines ergonomic adjustment with advanced security. The Tri-Security Mechanism includes an arm lock, anti-thief lock and Kensington lock support to help protect both the tablet and the mounting system. Integrated cable management keeps charging cables neat and organised for a professional appearance.

Performance tier: Professional Commercial Tablet Mount

Uses: Retail displays, point of sale terminals, kiosks, reception desks, exhibitions, hospitality, healthcare, education, business workstations.

Easy to Install, White and Black color available. Grommet base by request.

Description

The Aavara APC210 provides a secure and highly adjustable solution for mounting tablets in commercial and professional environments. Its heavy-duty clamp base creates a stable installation without permanently modifying the work surface, making it suitable for retail counters, reception areas, offices and exhibition displays.

The dual arm construction with three adjustable joints allows the tablet to be positioned comfortably for customers or staff. Users can rotate the holder through 360 degrees for portrait or landscape viewing while adjusting tilt and swivel angles to achieve the ideal viewing position.

Security is a major feature of the APC210. The integrated Tri-Security Mechanism combines an arm lock, anti-thief lock and Kensington lock compatibility to help protect valuable tablets from unauthorised removal. Built-in cable management keeps charging cables organised and reduces clutter around the installation.

Constructed from steel, aluminium alloy and durable plastic components, the APC210 is designed for long-term commercial use while maintaining smooth movement and reliable positioning.

FAQ

What tablets are compatible with the Aavara APC210?

The APC210 is designed for tablets measuring between 9 inches and 11 inches, including many iPad models and compatible tablets that meet the supported size and thickness requirements.

Can the tablet rotate between portrait and landscape mode?

Yes. The holder supports full 360 degree rotation, allowing easy switching between portrait and landscape orientations.

Is this tablet holder suitable for retail point of sale systems?

Yes. The APC210 is designed specifically for commercial environments including retail counters, kiosks, customer service desks and digital signage applications.

Does the APC210 include security features?

Yes. It features the Aavara Tri-Security Mechanism consisting of an arm lock, anti-thief lock and Kensington lock support for enhanced tablet protection.

How is the tablet holder installed?

The APC210 installs using a sturdy clamp base that securely attaches to compatible desks, counters or work surfaces without requiring permanent mounting.
