Specifications

Overview Summary

Aavara AS244 Ultra Slim 2 Pivot TV Wall Mount

The Aavara AS244 is engineered for users who need a secure, flexible and professional wall mounting solution for LCD and plasma displays. Its ultra slim aluminium alloy construction combines strength with a modern appearance while allowing the display to extend away from the wall for easier positioning.

Its dual arm mechanism with three joints provides smooth movement, making it easy to tilt and swivel the display for improved viewing comfort. Automatic Safety Lock technology helps secure the display during installation, while ExperTorque technology assists with smooth movement and positioning. Integrated cable management keeps installation neat and organised.

Performance tier: Premium

Uses: Home entertainment, office displays, meeting rooms, digital signage, retail displays, commercial installations

Overview

Aavara AS244 is a full motion Ultra Slim LED/LCD wall mount, featuring easy adjustment of Tilt and Swivel for ergonomics. With the Tilt angle of +0degrees~ -12degreesdegree and swivel +/- 90 degree, it gives you the best viewing angles of your screen. It supports max. mounting pattern 400x400mm display and ExperTorque technology enables easy adjustment of the screens hinged by its weight.
Smart cable management system keeps messy cables in good order, giving you a deco. look without compromising on design.

Description

The Aavara AS244 is designed to provide a secure and flexible mounting solution for compatible LCD and plasma displays. Its

aluminium alloy construction delivers excellent strength while maintaining a lightweight design that complements modern home and business environments.

The dual arm mechanism incorporates three joints that allow the display to extend from the wall when required and retract to maintain an ultra slim profile when not being adjusted. Tilt and swivel adjustments make it easier to reduce glare and position the display for comfortable viewing from different seating positions.

Automatic Safety Lock provides additional confidence during installation by helping secure the display to the wall mount. ExperTorque technology supports controlled movement while integrated cable management helps organise cables for a clean and professional appearance.

FAQ

What TVs are compatible with the Aavara AS244?

The wall mount is compatible with LCD and plasma displays that support VESA mounting patterns of 100mm, 200mm, 300mm or 400mm and weigh up to 25kg.

Can the TV be tilted after installation?

Yes. The mount supports tilt adjustment from +17 degrees to -15 degrees, allowing you to optimise viewing angles and reduce screen glare.

Does the mount swivel?

Yes. The dual arm design provides up to +/-90 degrees of swivel, depending on the display size and installation position.

How far does the mount extend from the wall?

The mount extends from 41mm when folded to a maximum distance of 381mm from the wall.

Does the mount include cable management?

Yes. Integrated smart cable management helps organise display cables for a cleaner and more professional installation.

Is the Aavara AS244 suitable for business installations?

Yes. It is suitable for home entertainment systems, meeting rooms, offices, retail displays and commercial digital signage where flexible screen positioning is required.
