Overview Summary

Aavara ATW20M Full Motion Display Arm Wall Mount

The Aavara ATW20M is a premium full motion wall mount engineered for monitors and displays requiring flexible positioning. Its aluminium alloy and steel construction provides strength and stability while supporting displays weighing up to 20kg. The dual arm and three joint mechanism allows users to adjust the display for improved ergonomics and optimal viewing angles.

Designed for home, office, education, retail, and commercial installations, the ATW20M features adjustable tilt, swivel, rotation, and height positioning. ExperTorque technology helps maintain smooth movement while smart cable management keeps cables organised for a cleaner installation.

Performance tier: Professional

Uses: Office monitors, digital signage, meeting rooms, home office, education, commercial displays

Overview

Aavara ATW20M is a Free Style full motion LED/LCD wall mount, featuring easy adjustment of Tilt and Swivel for ergonomics and equipped with security lock. With the Arm Tilt angle of +65~-30 degree and swivel +/- 90 degree, it gives you the best viewing angles for screens. It supports max. mounting 400x400mm display and ExperTorque(TM) technology enables

adjustment of the screens hinged by its weight. Smart cable management system keeps messy cables in good order, giving you a deco. look without compromising on design.

Description

The Aavara ATW20M Full Motion Display Arm is designed to provide maximum flexibility when mounting compatible monitors and displays to a wall. Its strong aluminium alloy and steel construction delivers long term durability while maintaining smooth movement through its dual arm and three joint design.

The wall mount allows users to adjust viewing angles with multiple tilt and swivel positions, making it suitable for collaborative workspaces, digital signage, conference rooms, and home office environments. The 360 degree rotation enables quick switching between landscape and portrait orientation where supported by the display.

ExperTorque technology assists in maintaining controlled movement while allowing easy repositioning. Integrated cable management helps keep power and display cables organised for a clean and professional installation. The mount supports VESA mounting patterns up to 400 x 400 and accommodates displays weighing up to 20kg.

FAQ

What displays are compatible with the Aavara ATW20M?

The ATW20M supports displays that use VESA mounting patterns up to 400 x 400 and weigh no more than 20kg.

Can the display rotate between landscape and portrait?

Yes. The mount provides 360 degree rotation, allowing compatible displays to be positioned in either landscape or portrait orientation.

Is the wall mount height adjustable?

Yes. The ATW20M includes height adjustment to improve viewing comfort and installation flexibility.

Does this wall mount support tilt and swivel adjustments?

Yes. It offers adjustable display tilt, arm tilt, and up to +/-90 degree swivel for optimal viewing angles.

What is ExperTorque technology?

ExperTorque technology helps provide controlled and smooth movement while adjusting the mounted display.

Does the mount include cable management?

Yes. Integrated smart cable management helps organise cables for a cleaner and more professional installation.
