Overview Summary

Aavara DS210 Dual Flip Monitor Stand for 2 x LCD Displays

The Aavara DS210 is a premium dual monitor desk stand designed for business professionals, designers, developers, traders, content creators, and office users who require a flexible dual display workspace. Its independent swing arms allow each monitor to be positioned individually for maximum comfort and productivity.

With height adjustment, horizontal and vertical movement, tilt, swivel, and full 90 degree rotation, the DS210 allows users to configure displays in either landscape or portrait orientation. Integrated smart cable management keeps cables organised, while Aavara ExperTorque technology provides smooth and reliable monitor positioning over extended use.

Performance tier: Professional

Uses: Office work, dual monitor workstations, programming, financial trading, graphic design, video editing, CAD, productivity, home office

Overview

Aavara DS210 is a Dual LED/LCD Monitor stand, designed to support larger displays from 24~32 inch. Wide angle of +/- 15 degree Tilt & Swivel 360 degree rotation. It supports VESA 200x100/ 100x100/ 75x75mm display and ExperTorque technology enables easy adjustment of the screens hinged by its weight. Smart cable management system keeps messy cables in good order. Two independent arms make the most efficiency at work.

Description

The Aavara DS210 Dual Flip Mount is engineered to improve comfort, organisation, and productivity in modern workspaces. Designed to securely support two LCD monitors, each display can be adjusted independently using flexible swing arms that

provide precise positioning for different users and applications.

The stand supports both landscape and portrait monitor orientation through its 90 degree rotation pivot, making it suitable for software development, coding, document editing, financial analysis, design work, and content creation. Tilt and swivel adjustments help reduce glare while allowing comfortable viewing angles throughout the working day.

Aavara's ExperTorque technology delivers smooth monitor movement while maintaining secure positioning after adjustment. Smart cable management routes monitor cables neatly through the stand, reducing desktop clutter and creating a cleaner professional workspace. The sturdy construction supports monitors up to 32 inches and up to 8kg per display while remaining compatible with common VESA mounting standards.

FAQ

What monitor sizes are supported by the Aavara DS210?

The stand supports two LCD monitors up to 32 inches each. Each monitor can weigh up to 8kg while remaining fully adjustable.

Can each monitor be adjusted independently?

Yes. Each display is mounted on its own independent swing arm, allowing separate positioning and adjustment.

Can the monitors be used in portrait mode?

Yes. The 90 degree pivot allows each monitor to rotate between landscape and portrait orientation.

Which VESA mounting patterns are supported?

The DS210 supports multiple VESA standards. Compatible mounting patterns include 200 x 100mm, 100 x 100mm and 75 x 75mm.

Who is this monitor stand suitable for?

The DS210 is ideal for professional desktop environments. It is well suited for office users, programmers, designers, financial professionals, engineers, content creators and anyone using dual monitor workstations.
