Specifications

About this product

The Aavara TC011 flip mount is a professional LCD mounting solution designed for PoS and retail display environments, featuring a clamp base, VESA compatibility, and smooth rotation for flexible screen positioning. Buy now to upgrade your workspace or checkout counter with reliable height adjustability, 90 degree pivot rotation, and ExperTorque technology for stable, precise screen control in South African business environments.

Overview Summary

Aavara TC011 Flip LCD Monitor Mount is a versatile clamp-based mounting solution designed for commercial PoS and retail display setups. It supports quick switching between landscape and portrait orientations using a 90 degree rotation pivot, making it ideal for customer-facing screens and interactive checkout systems.

Built with aluminium alloy and steel construction, this mount ensures durability and stability while supporting LCD screens up to 24 inches and 12Kg. The integrated ExperTorque technology allows smooth and controlled movement, while tilt and swivel adjustment up to 20 degrees enhances viewing flexibility in busy environments.

With VESA compatibility of 100x100 and 75x75, plus smart cable management and height adjustability, the TC011 provides a clean, professional installation suitable for modern retail and business applications.

Performance tier: Professional

Uses: PoS systems, retail checkout displays, digital signage, customer information screens

Overview

Aavara TC011 is a Single LED/LCD Monitor clamp base stand, featuring a wide angle of +/- 20 degree Tilt, swivel and a 360 degree rotation. It supports VESA 100x100/75x75mm display and ExperTorque(TM) technology enables adjustment of the screens hinged by its weight. Pole Height adjustment up to 345 mm /13.58"

Description

The Aavara TC011 Flip Mount is engineered for professional LCD mounting in retail, hospitality, and point of sale environments. Its clamp base design allows secure installation on counters and desks without permanent fixtures, making it ideal for flexible workspace setups.

This mount supports smooth rotation between portrait and landscape modes with a 90 degree pivot system, enabling dynamic content display for customers. The integrated ExperTorque mechanism enhances movement control, ensuring stable adjustments without sudden drops or shifts.

Designed with aluminium alloy and steel components, the TC011 balances strength and lightweight construction, supporting monitors up to 24 inches and 12Kg while maintaining a clean, professional appearance.

Features

The Aavara TC011 Flip Mount offers a range of practical features designed for professional display environments.
