Specifications

About this product

The Aavara TS011 Flip Mount LCD Stand is a professional single-monitor mounting solution designed for flexible workstation setups in South Africa. Featuring height adjustment, 20 degree tilt and swivel movement, and 90 degree pivot rotation for landscape or portrait viewing, this stand improves comfort and productivity in office, retail, and industrial environments. Built with durable aluminum alloy and steel construction, the TS011 supports up to 2 x 24 inch displays with ExperTorque technology for smooth positioning and stability. Buy now from our website for quick delivery and improved workspace organization.

Overview Summary

Aavara TS011 Flip Mount for 1 x LCD Stand

The Aavara TS011 is a versatile monitor mounting solution engineered for professional users who require adjustable screen positioning and efficient workspace management. Its ergonomic design supports tilt, swivel, height adjustment, and 90 degree pivot rotation, allowing users to switch easily between portrait and landscape orientations for different applications.

Constructed from durable aluminum alloy and steel materials, the TS011 delivers long-term reliability while maintaining a clean and modern appearance. The integrated smart cable management system helps reduce cable clutter, creating a more organized workstation for offices, point-of-sale counters, control rooms, and productivity-focused environments.

The stand supports VESA 75 x 75mm and 100 x 100mm mounting standards and can accommodate displays up to 24 inches with a maximum load capacity of 12kg. Optional arm modules for keyboard trays or printers provide added flexibility for customized workstation layouts.

Performance tier: Professional ergonomic monitor mounting solution

Uses: Office workstations, retail counters, productivity setups, POS systems, industrial workstations, portrait display setups

Description

The Aavara TS011 Flip Mount LCD Stand is designed to improve workstation flexibility and viewing comfort for professional environments. Its adjustable design allows users to tilt, swivel, rotate, and reposition monitors for optimal ergonomics and productivity throughout the day.

With support for both portrait and landscape orientation through its 90 degree pivot mechanism, the TS011 is suitable for data monitoring, coding, document editing, retail systems, and multitasking applications. The integrated ExperTorque technology delivers smooth monitor movement while maintaining stable positioning during use.

The stand is manufactured using durable aluminum alloy and steel materials for enhanced structural strength and long-term reliability. Its smart cable management system helps route cables neatly for a cleaner and more organized workspace.

Supporting displays up to 24 inches and a maximum load of 12kg, the TS011 is compatible with monitors using VESA 75 x 75mm or 100 x 100mm mounting standards. Optional arm modules for keyboard or printer support allow expanded workstation customization for business and industrial applications.
