Specifications

About this product

The Aavara VC831 Wall-Mount Column Rail System is a professional triple display mounting solution designed for flexible vertical or horizontal monitor installations. Its durable aluminium alloy construction, adjustable rail design, ExperTorque technology, automatic safety lock, and integrated cable management make it ideal for professional workspaces. Buy the Aavara VC831 Wall-Mount Column Rail System online today for quick delivery in South Africa.

Overview Summary

Aavara VC831 Wall-Mount Triple Display Rail System

The Aavara VC831 is designed for users who require a secure and flexible solution for mounting up to three monitors from a single wall mounted column. The adjustable rail allows displays to be arranged either vertically or horizontally while maintaining a clean and professional installation.

Manufactured from strong aluminium alloy, the VC831 features one jointed pivot point per display with +/-20 degree tilt and +/-20 degree swivel adjustment for improved viewing comfort. Automatic safety locks, ExperTorque technology, and integrated cable management help create a secure and organized workspace suitable for business, surveillance, control rooms, digital signage, and productivity environments.

Performance tier: Professional

Uses: Triple monitor workstations, office productivity, trading desks, surveillance systems, control rooms, engineering workstations, digital signage

Overview

Aavara Easy-To-Install Mounting Column System makes DOOH (Digital Out Of Home) simple and flexible, various alignments

to fulfill broad Digital Signage applications. VC831 supports 17~24 inch display x3, with tilt and swivel angle +/-20degrees, rotation 360degrees, VESA 100x100mm. ExperTorque(TM) technology enables adjustment of the screens hinged by its weight.

Description

The Aavara VC831 provides an efficient solution for mounting three displays using a single wall mounted column and adjustable rail system. It supports both horizontal and vertical monitor layouts, making it suitable for environments where screen positioning and workspace efficiency are important.

Constructed from aluminium alloy, the mounting system delivers durability while maintaining a clean appearance suitable for commercial and professional installations. Each display mount incorporates a jointed pivot that allows tilt and swivel adjustments, enabling users to position monitors for improved ergonomics and visibility.

ExperTorque technology assists with secure positioning while the automatic safety lock helps keep each monitor firmly attached during installation and everyday use. Integrated cable management routes display cables neatly along the mounting system to reduce clutter and create a professional finish.

The VC831 supports monitors with VESA 75 x 75 mm and 100 x 100 mm mounting patterns and can safely hold displays weighing up to 12 kg each.

Screw Type	M4
ExporTorque	ExperTorque design for easy adjustment hinged by monitor weight
Max. Mounting	100x100/75x75mm
Material	Steel/ Aluminum Alloy

FAQ

What monitors are compatible with the Aavara VC831?

The VC831 supports monitors with VESA 75 x 75 mm and 100 x 100 mm mounting patterns. This makes it compatible with many business, professional and commercial displays that fall within the supported weight limit.

How many monitors can the VC831 support?

The mounting system is designed to hold up to three monitors. Each monitor can weigh up to 12 kg while remaining within the product specifications.

Can the monitors be arranged vertically?

Yes. The adjustable rail system allows monitors to be positioned either vertically or horizontally depending on workspace requirements.

Does the mount include cable management?

Yes. The VC831 includes integrated smart cable management to keep monitor cables organized and reduce visible cable clutter.

Can the monitors be adjusted after installation?

Yes. Each display includes a jointed pivot that provides +/-20 degree tilt and +/-20 degree swivel adjustment for improved viewing comfort.
