Product Specification Sheet

Aavara W8812 is a Workstation Column Combo System with single Display and Keyboard featuring free style height adjustment for Ergonomics. Larger angle of height adjustment makes your working space more flexible and agile. W8812 empowers productive and ergonomic working environment at comfortable position even without desk. Features tilt -5degrees ~ +35degrees, swivel +/- 90degrees, rotation 360degrees of the display and height adjustment range up to 315 mm /12.40" It suits any stand-alone working space lack of typical desk environment, giving the optimal solution for reforming your working scnerio. Widely deploy in Warehouse, Hospital, Clinic, Customs, Airport, Self-Service Stand, Lottery Shops, Theater and SOHO(Small Office Home Office)...etc.

Description

The Aavara W8812 is engineered for professional environments where workspace efficiency and ergonomic comfort are essential. By mounting directly to the wall, it frees valuable desk space while providing flexible positioning for both the monitor and keyboard.

The included AW110 display arm offers smooth movement with multiple adjustment points, allowing users to position their monitor for optimal viewing. Landscape and portrait orientation are both supported through the 360 degree rotating VESA mount. The keyboard arm features multiple articulated joints that allow comfortable positioning for various working styles.

ExperTorque technology provides controlled movement for reliable positioning while integrated cable routing keeps cables organized for a cleaner appearance. The aluminium alloy and steel construction delivers durability suitable for demanding commercial and professional environments.
