

LT-BB30/60M

Bitfenix Alchemy 2.0 Blue 60cm Magnetic Led strips - with magnets embedded into strips

Product Overview

Bitfenix BFA-MAG-60BK30-RP Alchemy 2.0 Magnetic Led strips - with magnets embedded into strips, TriBright LED with independent ICs for each LED bulb, support daisy-chain connect for multiple led strips/power adapter - Blue, 30 leds/ 60cm

Specifications

Overview:

Part of the BitFenix Alchemy Premium Modding Series, Alchemy LED Strips are the ideal choice when modding inspiration strikes. These precision manufactured LED Strips come with BitFenix TriBright™ LED Technology for the absolute brightest LED strips available. Alchemy LED Strips come in a multitude of lengths and colors, enabling you to bring your modding vision to light.

Features:

Powerful Magnets

Tiny yet powerful black magnets embedded into the flexible high transparency Polyurethane substrate allow you to attach Alchemy 2.0 magnetic LED strips to any steel part of your case, radiator shrouds, power supply cover and more. They hold your LED strips in place the first time, every time, and they won't come off after a while. Easily re-locate them within your system for optimum lighting, or re-use them in different builds!

TriBright™

TriBright™ LEDs offer far better color tones, glow brighter, last longer, and scatter light more evenly than conventional LED strips, and as a result cast very soft diffused shadows instead of hard shadows cast by narrow angle single LED modules. TriBright™ LEDs offer unmatched bright white light that illuminate all colors without giving your system a blue, yellow or even slight green tint like most cheap no-name LED strips.

Unmatched cable system

To enable the best possible cable routing and management possible, not only the LED strips themselves, but even the power adapters are daisy chain-able. We increased the length of the power adapter to 50cm for comfortable routing even in massive cases like our Shinobi XL and Colossus, and even the power cable itself has a magnet embedded in its head, so it won't pull down the LED strip.

Specifications

Product Code	LT-BB30/60M
Available LED Colors	Blue
Magnets	Black Sintered NdFeB Permanent Magnets
LED Type	5050 TriBright SMD
Lumen	60
Color Rendering Index	~80
Angle	120 degrees
Voltage (v)	12
Flex PCB Quality	1oz copper
Protective cover	High-Clarity Polyurethane
Power Cable Length	50cm - 20" - daisy-chainable
LED Strip Width	10mm - 0.4"
LED Strip Thickness	2mm - 0.08"
LEDs	30
Magnets	12
Wattage (W)	7.2
