Bitfenix BFA-AAL-50WK15-RP alchemy aqua Led strips - 15 leds / 50cm White

Product Overview

Bitfenix BFA-AAL-50WK15-RP alchemy aqua Led strips - with WaterProof rubber protection + TriBright LED with independent ICs for each LED bulb , support daisy-chain connect for mutple led strips - White , 15 leds / 50cm

Specifications

About this product

The BitFenix Alchemy Aqua LED Strip BFA-AAL-50WK15-RP is a 50cm waterproof white LED lighting strip designed for PC case modding and custom system illumination. Featuring 15 high-brightness TriBright LEDs with independent ICs for each LED, this strip delivers consistent lighting performance and enhanced brightness. Its waterproof rubber protection, precision SMT construction, and daisy-chain support make it an excellent choice for gaming PCs, water-cooled systems, and custom computer builds. Buy online today for quick delivery in South Africa.

Overview Summary

BitFenix Alchemy Aqua LED Strip White 50cm 15 LEDs

The BitFenix Alchemy Aqua Series LED Strip is part of the premium Alchemy modding range, offering bright and reliable white illumination for PC enthusiasts. Designed with TriBright LED technology, each LED is powered by an independent IC to maximize brightness and deliver uniform lighting throughout the strip.

ComX Computers

Product Specification Sheet

The waterproof Aqua design features protective rubber coating, making it suitable for systems that incorporate liquid cooling components. Its flexible installation options and daisy-chain capability allow multiple strips to be connected together for larger lighting projects while maintaining a clean and professional appearance.

Performance tier:Premium PC Lighting

Uses:PC case lighting, gaming PC builds, water-cooled systems, computer modding, workstation lighting, custom chassis illumination

Overview

Part of the BitFenix Alchemy Premium Modding Series, Alchemy LED Strips are the ideal choice when modding inspiration strikes. These precision manufactured LED Strips come with BitFenix TriBright(TM) LED Technology for the absolute brightest LED strips available. Alchemy LED Strips come in both chainable Connect and waterproof Aqua, and offer a multitude of lengths and colors, enabling you to bring your modding vision to light.

Description

The BitFenix Alchemy Aqua LED Strip is designed for PC enthusiasts who want professional-grade internal lighting with dependable performance. Measuring 50cm in length and equipped with 15 white LEDs, it provides bright and even illumination for computer cases, gaming systems, and custom workstation builds.

Built with BitFenix TriBright technology, each LED uses an independent integrated circuit to maximize brightness and improve consistency across the strip. This design helps create a clean lighting effect that highlights hardware components, cable management, and cooling systems.

The Aqua Series incorporates waterproof rubber protection, making it particularly suitable for systems that include liquid cooling reservoirs and custom water-cooling loops. Precision SMT manufacturing enhances durability, electrical conductivity, and long-term reliability.

Support for daisy-chain connectivity allows multiple compatible LED strips to be connected together, enabling larger lighting installations without complicated wiring. The strip is powered by a 12V supply and includes adhesive backing for secure installation inside compatible computer chassis.

Features

The BitFenix Alchemy Aqua LED Strip combines premium construction with bright white illumination for advanced PC lighting projects.

- 15 high-brightness white LEDs for consistent internal illumination
- TriBright LED technology with independent ICs for each LED
- Waterproof Aqua Series design with protective rubber coating
- Daisy-chain support for connecting multiple LED strips
- 5050 top SMD LED construction
- Precision SMT manufacturing for improved reliability
- 120 degree light dispersion angle
- 12V operating voltage
- 3.6W power consumption
- High-quality adhesive backing for easy installation
- Suitable for gaming PCs, workstations, and custom computer builds

TriBright(TM) LED Technology

When only the brightest will do, BitFenix TriBright(TM) LED Technology gives you the industry's brightest LED strips. TriBright uses independent ICs to power each LED bulb for maximum brightness.

ComX Computers

Product Specification Sheet

Precision Manufactured

Alchemy LED Strips are made using a precision SMT manufacturing process, which means the highest quality, enhanced current conduction, and prolonged life.

Chainable Connect Series

Have a special idea that needs an extra-long length of LED strips No problem. With Alchemy Connect LED Strips, you can connect as many strips together as you need with the only limitation being your power supply's current.

Waterproof Aqua Series

Want to pimp out your water-cooled rig Use Alchemy Aqua Series LED Strips, which are completely waterproof and perfect for liquid cooling reservoirs.

High Grade Adhesive

BitFenix Alchemy LED Strips are backed with high-grade adhesive from 3M(TM), which makes sure that your LED strips will remain where you left them, even when your computer is being moved around.

Multiple Colors and Lengths

No two modding projects are alike, which is why Alchemy LED Strips come in a large variety of colors and lengths.

What's in the Box

- 1 x BitFenix Alchemy Aqua White LED Strip 50cm
- Pre-installed adhesive mounting backing

Specifications

- Brand: BitFenix
- Model: BFA-AAL-50WK15-RP
- Series: Alchemy Aqua
- Product type: Waterproof LED strip
- LED colour: White
- LED quantity: 15 LEDs
- Strip length: 50cm
- LED type: 5050 Top SMD
- Lighting technology: TriBright LED Technology
- LED control: Independent IC per LED
- Viewing angle: 120 degrees
- Brightness: 50-60 lumens
- Operating voltage: 12V
- Power consumption: 3.6W
- Protection: Waterproof rubber coating
- Connectivity: Daisy-chain compatible
- Manufacturing process: Precision SMT
- Installation: Adhesive backing
- Application: PC case lighting and modding

FAQ

What is the BitFenix Alchemy Aqua LED Strip used for?

The BitFenix Alchemy Aqua LED Strip is designed to provide internal lighting for computer cases, gaming PCs, workstations,

ComX Computers

Product Specification Sheet

and custom modding projects.

Is this LED strip waterproof?

Yes. The Aqua Series includes waterproof rubber protection, making it suitable for use in systems that incorporate liquid cooling components.

Can multiple LED strips be connected together?

Yes. The strip supports daisy-chain connectivity, allowing multiple compatible BitFenix LED strips to be connected for extended lighting coverage.

How many LEDs are included on this strip?

This model includes 15 white LEDs distributed across a 50cm strip.

What is TriBright LED technology?

TriBright technology uses an independent IC for each LED, helping deliver improved brightness, consistency, and lighting performance.

What voltage does the LED strip require?

The BitFenix Alchemy Aqua LED Strip operates on a 12V power supply.

Is this suitable for gaming PC builds?

Yes. The bright white lighting and premium construction make it ideal for gaming systems, showcase PCs, and custom computer builds.
