Shop now to upgrade your racing rig and enjoy a more immersive driving experience on PC and consoles.

Performance tier:Mid-range

Uses:Sim racing, racing wheel setups, gaming on PC and consoles, racing rig upgrades, gear shifting accessory

Overview:

Logitech Driving Force Shifter: Enhance Your Racing Wheel Experience

The Logitech Driving Force Shifter is designed to perfectly complement your G923, G29, or G920 racing wheel setup, delivering a more immersive and realistic racing experience on PC and consoles. Featuring a six-speed gearbox with a push-down reverse gear, this shifter brings precision and durability to your sim racing rig.

Features:

Compatible with G923, G29, and G920 Racing Wheels

This shifter is specifically made for Logitech's popular G923, G29 (PlayStation and PC), and G920 (Xbox and PC) racing wheels. When paired together, they provide an authentic feel, allowing you to fully enjoy the latest racing games on multiple platforms. Adding the Driving Force Shifter completes your racing setup for a realistic and engaging experience.

High-Quality Construction for Precision and Comfort

Built with a solid steel gear shaft, the Driving Force Shifter offers reliable performance and durability. The knob and boot are covered in hand-stitched leather, providing a comfortable grip and an authentic race-inspired look. These premium materials ensure that the shifter withstands intense racing sessions while maintaining a professional appearance.

Smooth Six-Speed "H" Pattern with Push-Down Reverse

Experience smooth and accurate gear changes with the six-speed short-throw "H" pattern design. The push-down reverse gear enhances realism and helps prevent accidental shifts. Whether you're taking tight corners or accelerating on straightaways, the shifter delivers a tactile, satisfying click in every gear.

Secure Mounting for Stability During Racing

To keep your shifter steady during aggressive maneuvers, the Driving Force Shifter features built-in clamps that securely attach to your table or racing rig. This stable mounting minimizes wobbling and allows you to focus fully on your driving without distractions.

Customize Your Sim Racing Setup

Logitech's Driving Force Shifter integrates seamlessly with a wide range of Logitech G racing accessories. You can mix and match components to build your ideal sim racing rig. Plus, with the Racing Adapter, you have the ability to adjust brake force pressure on the fly, giving you more control over your performance.

Upgrade your sim racing gear with the Logitech Driving Force Shifter and enjoy a more realistic, precise, and durable racing experience designed for serious gamers and racing enthusiasts alike.
