Specifications

Overview Summary:

The Logitech Wave Keys & Lift Wireless Combo is designed to deliver all-day comfort with an ergonomic keyboard and vertical mouse that promote a more natural typing and pointing position. Bluetooth and the included Logi Bolt receiver provide reliable wireless connectivity across multiple compatible devices, while long battery life helps keep you productive with minimal interruptions.

Ideal for home offices and professional workspaces, this ergonomic combo offers smooth, precise control, quiet operation, and easy multi-device switching. Buy now for a more comfortable computing experience or shop now for fast delivery anywhere in South Africa.

Performance tier: Premium Ergonomic Productivity

Uses: Office work, home office, remote working, business productivity, document editing, spreadsheet work, web browsing, multitasking, multi-device computing

Overview:

Logitech Wave Keys & Lift Wireless Ergonomic Keyboard and Mouse Combo
Transform your everyday workspace with the Logitech Wave Keys & Lift Wireless Combo, an ergonomic keyboard and vertical mouse bundle designed to improve comfort throughout long working sessions. Built to encourage a more natural typing and mousing posture, this wireless combo helps reduce pressure on the wrists and forearms while delivering reliable productivity across multiple devices and operating systems.

Description:

The Logitech Wave Keys & Lift Combo combines an ergonomically shaped wireless keyboard with a vertical wireless mouse to create a more comfortable desktop experience. Featuring a cushioned palm rest, natural hand positioning, Bluetooth and Logi Bolt connectivity, customizable controls, and extended battery life, this combo is ideal for professionals, remote workers, and anyone seeking improved comfort and productivity during daily computer use.

Features:

Designed for Everyday Ergonomic Comfort
The Ergo Series Wave Keys keyboard features a distinctive wave-shaped layout that encourages a more natural hand position while typing. Paired with the Lift Vertical Mouse, the combo promotes healthier wrist and forearm alignment, helping reduce

fatigue during extended periods at your desk.

The Lift mouse is particularly suited to users with small to medium-sized hands, allowing your hand to rest in a relaxed handshake position while working.

Ergonomically Developed and Tested
Wave Keys and Lift were designed, developed, and tested by the Logi Ergo Lab and have been approved by United States Ergonomics. Every element has been engineered to provide lasting comfort while maintaining excellent productivity throughout the workday.

Compact Layout for Better Posture
The compact keyboard design allows the mouse to sit closer to your body, encouraging a more natural shoulder position. This thoughtful layout helps create a comfortable workstation without sacrificing access to essential keys.

The integrated cushioned palm rest uses three layers of support that work together to provide lasting wrist comfort while typing.

Comfortable Vertical Mouse Design
The Logitech Lift Vertical Mouse positions your hand at a natural 57-degree angle, reducing wrist strain while promoting a relaxed grip. An integrated thumb rest further improves comfort during extended use.

The SmartWheel offers two scrolling experiences, making it easy to switch between precise line-by-line navigation and fast scrolling through lengthy documents.

Personalize Your Workflow
Using the optional Logi Options+ software, you can customize buttons, shortcuts, and workflows to suit your preferred applications. Personalized controls help streamline repetitive tasks and improve overall productivity.

Reliable Multi-Device Wireless Connectivity
Switch effortlessly between supported computers, tablets, and compatible mobile devices using Easy-Switch technology. Connect via Bluetooth or the included Logi Bolt USB Type-A receiver for a stable and dependable wireless experience.
