Logitech Zone Vibe

Logitech Zone Vibe Graphite Wireless Headphones

Product Overview

Logitech Zone Vibe Graphite Wireless Headphones, USB-C Charging Bluetooth - Up to 30m Range

Specifications

Overview:

Over-the-ear headphones with Bluetooth and USB receiver. Certified for business and perfect for hybrid work.

Features:

MODERN STYLE FOR HYBRID WORK
Made for today's modern workers who prefer an over-the-ear headset with business-grade features. Works perfectly with most video meeting platforms. Remotely managed by IT through Logitech Sync and Logi Tune.

CERTIFIED FOR BUSINESS
Zone Vibe Wireless is certified for Microsoft Teams, Zoom, Google Meet, Google Voice, and works easily with other leading meeting and calling platforms. This headset is simple to use and priced for mass deployment.

WORK IN COMFORT AND STYLE
Provide stylish all-day comfort with Zone Vibe Wireless.

Less weight. More comfort
Zone Vibe Wireless is lighter than most over-the-ear headphones and earpads are made with memory foam for hours of comfort. Employees can find their perfect fit by expanding the headband or adjusting the earcups.

Style meets function
Increase adoption rates with modern design. With a mic boom that tucks away for a clean look, Zone Vibe Wireless is made for employees who want business features without sacrificing style.

AUDIO THAT'S MADE FOR VIDEO
Meet like a pro - in the office or at home. The noise-canceling mic with beamforming technology suppresses background sound so speakers can be heard clearly. Employees can flip to mute the mic for instant privacy.

IMMERSIVE AUDIO
Bring meetings and music to life with true, natural sound. 40mm speaker drivers deliver full-bodied bass, crisp higher frequencies, and low distortion. Customize 5-band EQ settings with Logi Tune.

RELIABLE MULTIPOINT BLUETOOTH
Zone Vibe Wireless enables a strong headphone-to-laptop connection via USB-C receiver and up to 18 hours talk time between charges. Multipoint Bluetooth easily switches between devices to avoid dropped calls.

MAXIMIZE PERFORMANCE. MINIMIZE DISRUPTIONS.
Support your hybrid workforce, configure all your meeting rooms in one place and keep your Logitech video collaboration devices healthy and up to date with Sync. Monitor rooms, devices, and peripherals from anywhere and resolve problems before they impact a meeting.

CUSTOMIZE THE EXPERIENCE
Own your video meeting experience, wherever you are. Ensure you always look and sound the way you want with on-screen webcam and headset settings. Plus, keep your devices up to date and join meetings with just one click.

SUSTAINABILITY AT LOGITECH
Logitech is committed to creating a more sustainable world. We are actively working to minimize our environmental footprint and accelerate the pace of social change.

OPTIMIZE WORKSPACES
Outfit each employee's home office or workstation with a suite of Logitech devices that deliver a unified experience. Improve employee productivity and simplify device management for IT.
