Verbatim 17.3" IPS 4K 3840x2160 Portable Touchscreen Monitor, Type-C, HDMI

Product Overview

Verbatim 32239 17.3" IPS 4K 3840x2160 Portable Touchscreen Monitor, Capacitive Touch panel, IPS Technology, 10-point Multi-Touch with G+G Technology, 1200:1 contrast (typical), 16:9 Aspect Ratio, 400 nits brightness, 6ms response time (typical GTG), 2x USB-C Input, 1x HDMI (1.4), 1x USB Type-A 2.0, 3.5 mm audio jack, HDR, FreeSync, Low Blue Light, Built-In kickstand, Aluminium Frame material

Specifications

Overview:

Part Number: 32239

- Portable monitor with Ultra HD 4K resolution of 3840 x 2160 and 16.7M colours
- Supports capacitive 10-point multi-touch with G+G technology; simply connect the monitor to your device using a USB-C cable
- IPS Panel incl. full viewing angle of 178 degrees and 16:9 screen ratio
- High quality black aluminium housing with neoprene sleeve
- 2 x USB-C 3.1 inputs supporting DisplayPort Alt Mode, plus a standard HDMI 1.4 port
- USB 2.0 port and 3.5mm audio jack outputs
- Great compatibility for work/travelling/gaming: Connect the portable monitor to your PC/Mac/Tablet/Phones/Consoles with USB-C or HDMI

Features:

Touchscreen Control

The Verbatim Portable Touchscreen 4K Monitor gives you an extra dimension for your work and play. You can use it as a second screen for your laptop when you are travelling or giving one-on-one presentations, or to provide a large additional display for your phone, tablet, or portable gaming system. Compact and versatile, the portable monitor gives you ultimate flexibility for increased productivity and entertainment while on the go.

The responsive and intuitive touch screen with 10-point touch functionality supports swipe, scroll, drag, and pinch gestures to help you get your tasks done efficiently. It's the ideal solution to help you overcome one-screen limitations outside the office, extending your visual experience, anytime and anywhere.

Ultra HD 4K resolution

Delivering 16.7M colours in Ultra HD 4K, the Verbatim 4K Portable Monitor utilizes in-plane switching technology (IPS) to produce a sharper and more accurate picture and wide viewing angle on its 16:9 screen. The built in kickstand enables the monitor to be set up at the angle that suits you best in a position of your choice helping to improve comfort and overall productivity.

The display incorporates high-dynamic range (HDR) technology which improves picture quality - significantly expanding the range of both contrast and colour - giving the image more "depth" and creating a fantastic viewing experience.

One cable connection

The portable monitor connects via USB-C meaning that power, data, and video is all transferred using a single cable. Just connect it to your laptop, Mac, tablet, phone, or games console, and start sharing screens!* There is also an HDMI cable included for those requiring connection via HDMI. Using HDMI requires the use of a power supply, which is also included. For touch function support, an additional USB cable is required. The power supply also supports longer use for devices connected via USB-C.

Lightweight and slimline, the portable touchscreen monitor easily fits most travel bags. Built in a solid and durable aluminium housing and with an included Neoprene protective sleeve, it's a perfect companion for those trips away.

*Ensure your device has a USB-C port supporting DisplayPort Alt Mode and power delivery.
