Overview Summary

Verbatim 43498 DVD+R Matt Silver 16X 10 Pack Spindle

The Verbatim 43498 DVD+R media is designed for dependable everyday recording and long term data storage. Each disc offers a 4.7GB capacity and supports recording speeds of up to 16X, making it suitable for backing up documents, photos, videos, music, and other digital content.

Featuring Verbatim's patented AZO recording layer and a matt silver surface, these discs provide excellent recording stability, strong compatibility with DVD writers, and a long archival life. The convenient 10 disc spindle helps keep media protected and organized between uses.

Performance tier: Premium archival optical media

Uses: Data backup, document archiving, photo storage, video recording, music storage, software distribution

Overview

Verbatim DVDR/RW uses MKM/Verbatim's technology which ensures any recording to be of a superior quality. Mitsubishi Chemical's R&D combined with its strong coorperation with drive manufacturers ensures the broad compatibility of Verbatim's discs making them ideal for sharing computer data, home videos, photos and music.

Description

The Verbatim 43498 DVD+R Matt Silver 16X 10 Pack Spindle is built for users who require dependable optical media for storing and protecting valuable digital content. With a storage capacity of 4.7GB per disc, these recordable DVDs are suitable for creating backups of documents, photos, videos, presentations, software, and multimedia files.

Verbatim incorporates its patented AZO recording technology to improve recording stability, reliability, and resistance to UV light. This helps maintain data integrity during recording and supports long term archival storage. The matt silver surface also allows easy disc identification using suitable markers.

Packaged in a protective spindle, the discs remain clean and organized while offering broad compatibility with DVD+R compatible drives and recorders.

Features

The Verbatim DVD+R media is engineered for reliable recording and long lasting storage.

- 4.7GB storage capacity per disc
- Supports recording speeds up to 16X
- 10 disc spindle pack
- Patented AZO recording layer
- High recording stability
- Long archival life
- Matt silver writable surface
- Broad compatibility with DVD+R compatible drives
- Suitable for data, video, music, and photo storage

High Quality Data Storage
When drive manufacturers test their products, they use Verbatim media. It's the global No.1 for a reason - guaranteed quality! Due to the extensive research and development undertaken over the past 50 years, Verbatim is able to provide the highest quality discs which ensure that all your data will be safely stored and will last a lifetime.

Long Lifetime
Optical discs provide the best solution for long-term safe and secure storage of your important files - ideal for all your precious photos, videos and documents that you want to keep forever. They are dust and water resistant and can withstand wide changes in temperature and humidity.

AZO Technology
AZO is patented technology used exclusively by Verbatim. It provides the ultimate resistance to UV light for increased protection and reliability.
