- Windows 11, 10, 8 or higher
- Mac OS X 10.4 or higher

Pack Contents

- Vx500 External Solid State Drive
- USB-C Cable
- USB-A Cable
- Nero Backup Software (not compatible with Mac OS)

Features:

Next generation storage technology

The Verbatim Vx500 External SSD uses high speed flash memory and a USB 3.2 Generation 2 controller, optimised to provide unparalleled performance.

Be in control of your data

Storing, moving and backing up large amounts of digital data can be time consuming and hard work. With transfer speeds of up to 500 MB/s* even high resolution video files can be moved in seconds. The Vx500's enhanced performance makes it ideal for running virtual machines on your computer.

Simple, sleek design

Made from space grey aluminium and weighing just 29 grams, the Vx500 External SSD has a very sleek and sophisticated look and feel. Although small in physical size, it has some serious storage space - available in capacities of up to 2TB, it is the perfect accessory for Ultrabook's with limited on-board storage.

Well connected

The Vx500 comes with USB-A and USB-C* cables so can be used immediately with a wide variety of devices, from PCs and TVs to the latest mobile devices.

** For optimal performance use a USB-C cable and USB 3.2 GEN 2 or Thunderbolt 3 host port. Transfer speeds based on internal data using UASP and BOT mode. Write speed dependent upon product capacity.
