With 16GB of portable storage, a low-profile design, and broad compatibility with computers, media players, TVs, and car audio systems, it is ideal for everyday file storage and transfer. Buy now from our website for a compact and reliable storage solution.

Overview Summary

Verbatim Store 'n' Stay NANO 16GB USB Flash Drive

The Verbatim Store 'n' Stay NANO 16GB USB Flash Drive is a compact storage device engineered for users who need additional storage without the bulk of a traditional flash drive. Its nano-sized form factor extends only a few millimeters from a USB port, making it suitable for semi-permanent installation in compatible devices.

With 16GB of storage capacity and a USB 2.0 interface, this flash drive provides convenient storage for documents, photos, music, and other digital files. The low-profile design makes it particularly useful for ultrabooks, netbooks, media players, smart TVs, and vehicle entertainment systems where space is limited.

The durable and lightweight construction allows the drive to remain connected without obstructing nearby ports or creating a snagging hazard during transport.

Performance tier: Entry-level portable storage

Uses: File storage, media playback, document transfer, TV storage expansion, car audio playback, ultrabook storage expansion

Overview

The Verbatim NANO USB Drive has a low profile design which is perfect for use with devices where a full size drive is not suitable. From use with TV's, media players and car audio devices with USB-A ports, to expanding the storage of an ultra-book without increasing its footprint, the Verbatim NANO USB Drive is the perfect solution. When inserted into a USB-A port only 5mm of the Verbatim Store 'n' Stay NANO USB Drive is left protruding, meaning it's so small and unobtrusive it can be let in semi-permanently.

Description

The Verbatim Store 'n' Stay NANO 16GB USB Flash Drive is designed for users who require discreet and convenient portable storage. Its ultra-compact form factor allows it to remain connected to a device without significantly increasing its physical footprint. This makes it especially useful for systems where a standard USB flash drive may be too large or inconvenient.

Whether used in a laptop, media player, smart TV, or vehicle entertainment system, the NANO drive provides reliable storage for everyday digital content. The 16GB capacity offers sufficient space for documents, presentations, music collections, photos, and other commonly used files.

The USB 2.0 interface ensures compatibility with a wide range of devices equipped with USB-A ports. The drive is also compatible with newer USB ports while maintaining dependable operation for file transfers and media access. Its lightweight construction and low-profile design make it a practical solution for permanent or semi-permanent installation.

Features

The Verbatim Store 'n' Stay NANO USB Flash Drive combines compact dimensions with practical storage functionality.

FAQ

What is the storage capacity of the Verbatim Store 'n' Stay NANO 97464?

The drive provides 16GB of storage capacity for documents, photos, music, videos, and other digital files.

Can this USB flash drive stay plugged into a laptop permanently?

Yes. The nano design is specifically intended for semi-permanent installation with minimal protrusion from the USB port.

Is the drive compatible with smart TVs and media players?

Yes. The low-profile design makes it suitable for use with many smart TVs, media players, and similar devices that support USB storage.

What USB interface does this drive use?

The drive uses a USB 2.0 interface and can be connected to compatible USB-A ports.

Can I use this drive in a car audio system?

Yes. It is designed for use with compatible car audio systems that support USB storage devices.

What operating systems are supported?

The drive supports Windows 11, Windows 10, Windows 8, and Mac OS X 10.4 or later.
