

MC122-2 FILTER

Midea Carbon Fiber Filter

Product Overview

Midea Carbon Fiber Filter - 1200L Filter Life Time, 2L/Min Purified Water Flow Rate, 0.1~0.4MPa Working Pressure, Efficient Filtration of Impurities in Water, Retail Box

Specifications

About this product

The Midea Carbon Fiber Filter is designed for efficient water filtration, helping reduce impurities in water while providing a purified water flow rate of up to 2L/min. With a 1200L filter lifetime and a working pressure range of 0.1-0.4MPa, it is a practical replacement filter for compatible Midea water filtration systems. Buy now from our website for a convenient water filtration solution.

Overview Summary

Midea Carbon Fiber Water Filter is designed to efficiently filter impurities from water for improved water quality. The carbon fiber filtration media supports a purified water flow rate of up to 2L/min while operating within a 0.1-0.4MPa working pressure range.

With a stated filter lifetime of up to 1200L, this replacement filter provides a practical solution for maintaining compatible Midea water filtration systems. Its compact replacement design makes it suitable for routine filter replacement where compatible.

Performance tier: Standard replacement water filtration

Uses: Water purification, impurity filtration, replacement filtration, compatible Midea water filtration systems

Description

The Midea Carbon Fiber Filter is a replacement water filtration component designed to help filter impurities from water. It uses carbon fiber filtration technology and is specified for a purified water flow rate of 2L/min, providing a steady flow for compatible water filtration applications.

The filter has a stated service life of 1200L, providing a defined filtration capacity before replacement is required. It is designed to operate at a working pressure between 0.1MPa and 0.4MPa, making these pressure requirements important when checking compatibility with the intended Midea water filtration system.

As a replacement filtration component, the Midea Carbon Fiber Filter can help maintain the filtration performance of a compatible system when the existing filter reaches the end of its usable life. It is supplied in a retail box and is suited to users looking for a replacement filter with clearly defined flow rate, pressure and filter life specifications.

Features

The Midea Carbon Fiber Filter combines a defined filtration capacity with a practical purified water flow rate for compatible water filtration systems.

- Carbon fiber filtration media
- Designed to filter impurities from water
- 1200L stated filter lifetime
- 2L/min purified water flow rate
- 0.1-0.4MPa working pressure
- Designed as a replacement filtration component
- Retail box packaging

What's in the Box

- 1 x Midea Carbon Fiber Filter

Specifications

- Product type: Carbon fiber water filter
- Filter media: Carbon fiber
- Filter lifetime: 1200L
- Purified water flow rate: 2L/min
- Working pressure: 0.1-0.4MPa
- Primary function: Filtration of impurities in water
- Packaging: Retail box

FAQ

What is the Midea Carbon Fiber Filter used for?

The Midea Carbon Fiber Filter is designed to filter impurities from water in compatible Midea water filtration systems.

What is the filter lifetime of the Midea Carbon Fiber Filter?

The stated filter lifetime is 1200L.

What is the purified water flow rate?

The specified purified water flow rate is 2L/min.

What working pressure does the Midea Carbon Fiber Filter require?

The specified working pressure range is 0.1-0.4MPa.

Is the Midea Carbon Fiber Filter a replacement filter?

Yes. It is designed as a replacement filtration component for compatible Midea water filtration systems.

What does the Midea Carbon Fiber Filter remove?

The product is specified for efficient filtration of impurities in water. Specific contaminant removal claims are not provided in the

ComX Computers

Product Specification Sheet

supplied product information.

How do I know if this filter is compatible with my Midea water filtration system?

Check the specifications and replacement filter requirements of your Midea water filtration system before purchasing to confirm compatibility.
