APPLE 4th Generation WIFI, Cellular, 16GB White iPad

Product Overview

APPLE iPad 4th Generation with WIFI, Cellular, 16GB, White

Specifications

Overview

When iPad was introduced, there was nothing quite like it. And there still isn't. Today millions of people are using iPad and iPad mini to do just about anything you can imagine. Here are a few reasons why they're loving every minute of it. With more than 300,000 apps made just for iPad, there's almost no end to what you can do.2 These aren't merely scaled-up versions of phone apps that lack features designed for a larger screen. They're powerful apps tailor-made to take full advantage of everything iPad has to offer. And because iPad and iPad mini are so thoughtfully designed, virtually every app works on both devices.

Features

The breakthrough Retina display.
Everything you do with iPad, you do through its large, beautiful display. And when the display is better, the entire iPad experience is better. The Retina display on iPad features a 2048x1536 resolution, rich colour saturation and an astounding 3.1 million pixels. That's four times the number of pixels in iPad 2 and a million more than an HDTV. Those pixels are so close together, your eyes can't discern individual ones at a normal viewing distance. When you can't see the pixels, you see the whole picture. Or article. Or game. In ways you never could before.

Twice the speed. Twice the graphics performance.
The new A6X chip inside iPad is our most powerful mobile chip yet. It delivers up to twice the CPU and graphics performance of the A5X chip. And it makes iPad feel faster and even more responsive. Apps launch instantly and run smoothly. Graphics-intensive games are fluid and lifelike on the gorgeous Retina display. And with improved image signal processing built into the A6X chip, the photos and videos you take with the 5-megapixel iSight camera look sharper and even more Retina worthy.

10-hour battery life.
iPad features a 3.1-million-pixel Retina display and an advanced A6X chip and graphics. How much of an effect does that have on battery life? Almost none. You still get up to 10 hours of power to read, watch, play, write and create whatever you want, all you want.

Up to 128GB of storage.
You can do just about anything on your iPad. And the more you do - take photos, record HD video or create documents, for example - the more storage space you need. With up to 128GB, you don't have to worry about space.2 Apps, music, magazines and more - there's plenty of room to keep it all with you.

Wave hello with the new FaceTime HD camera.
FaceTime on iPad puts you face to face - even when you're miles apart. You can make a video call over Wi-Fi or a mobile network,5 so if you're out and about, your friends and family are never out of the loop. And now with the new FaceTime HD camera, everyone can get an even better view of you and what's around you. You can also use it for taking self-portraits or recording 720p HD video.

Advanced Wi-Fi technology. Built in.
The new Wi-Fi capabilities built into iPad keep you connected faster than ever - up to twice as fast as any previous-generation iPad. With dual-band (2.4GHz and 5GHz) 802.11n Wi-Fi and support for channel bonding, download speeds can reach up to 150 Mbps.6 Translation: many of the things you do every day may start to feel a whole lot faster.

Your content. On all your devices.
iCloud is built directly into iPad. Just turn it on and you'll have instant access to all the things you need, whether you're on your iPad, iPhone, iPod touch, Mac or PC.7 New features in iOS 6 let you do even more with iCloud. Share the photos you want with the people you choose using Shared Photo Streams. Locate, lock and recover your misplaced iPad easier than ever. Browse a web page on one device and pick up where you left off on another using iCloud Tabs. And that's just for starters.

Specifications	
Product Code	MD525ZP/A
Height	241.2 mm (9.50 inches)
Width	185.7 mm (7.31 inches)
Depth	9.4 mm (0.37 inches)
Weight	662 g (1.46 pounds)

Wireless and Mobile Data	GSM/EDGE (850, 900, 1800, 1900 MHz)
	UMTS/HSPA+/DC-HSDPA (850, 900, 1900, 2100 MHz)
	LTE (Bands 4 and 17)**
	CDMA EV-DO Rev. A and Rev. B (800, 1900, 2100 MHz)
	GSM/EDGE (850, 900, 1800, 1900 MHz)
	UMTS/HSPA+/DC-HSDPA (850, 900, 1900, 2100 MHz)
	LTE (Bands 1, 3, 5, 13, 25)**
	802.11a/b/g/n Wi-Fi (802.11n 2.4GHz and 5GHz)
	Bluetooth 4.0 wireless technology
Retina display	9.7-inch (diagonal) LED-backlit Multi-Touch display with IPS technology
	2048x1536 resolution at 264 pixels per inch (ppi)
	Fingerprint-resistant oleophobic coating
Chip	Dual-core A6X with quad-core graphics
FaceTime HD Camera	1.2MP photos
	720p HD video
	FaceTime video calling over Wi-Fi or a mobile network
	Face detection
	Backside illumination
	Tap to control exposure for video or still images
	Photo and video geotagging
iSight Camera	5MP photos
	Autofocus
	Face detection
	Backside illumination
	Five-element lens
	Hybrid IR filter
	ƒ/2.4 aperture
	Tap to focus video or still images
	Tap to control exposure for video or still images
	Photo and video geotagging
Video Recording	1080p HD video recording
	Video stabilisation
	Face detection
	Tap to focus while recording
	Backside illumination

Input and Output	Lightning connector
	3.5-mm stereo headphone mini-jack
	Built-in speaker
	Microphone
	Micro-SIM card tray
Sensors	Three-axis gyro
	Accelerometer
	Ambient light sensor
Location	Wi-Fi
	Digital compass
	Assisted GPS and GLONASS
	Mobile data
Audio Playback	Frequency response: 20Hz to 20, 000Hz
	Audio formats supported: AAC (8 to 320 Kbps), Protected AAC (from iTunes Store), HE-AAC, MP3 (8 to 320 Kbps), MP3 VBR, Audible (formats 2, 3, 4, Audible Enhanced Audio, AAX and AAX+), Apple Lossless, AIFF and WAV
	User-configurable maximum volume limit
TV and Video	AirPlay mirroring and video out to Apple TV (2nd and 3rd generation)
	Video mirroring and video out support: Up to 1080p through Lightning Digital AV Adapter and Lightning to VGA Adapter (adapters sold separately)
	Video mirroring and video out support: Up to 720p through Lightning Digital AV Adapter and Lightning to VGA Adapter; video playback up to 1080p (sold separately)
Accesibility	VoiceOver screen reader
	Guided Access
	Support for playback of closed-captioned content
	AssistiveTouch interface for adaptive accessories
	Full-screen zoom magnification
	Large text
	Option to invert colours
	Left/right volume adjustment
Environmental Requirements	Operating ambient temperature: 0 degrees to 35 degrees C (32 degrees to 95 degrees F)
	Non-operating temperature: -20 degrees to 45 degrees C (-4 degrees to 113 degrees F)
	Relative humidity: 5% to 95% non-condensing
System Requirements	Apple ID (required for some features)
	Internet access

Built- In Apps	Safari
	Photos
	App Store
	Maps
	Photo Booth
	Reminders
	Camera
	Mail
	FaceTime
	iTunes
	Music
	Clock
	Calendar
	Messages
	Newsstand
	Videos
	Game Center
	Contacts
	Notes
