ME-C4P26D12x4

Dominator Platinum 16GB (4 x 4GB) 2666MHz DDR3 Module Memory

Product Overview

Corsair CMD16GX3M4A2666C12 , dominator Platinum with DHX technology + with white LED light bar + DHX Pro / corsair link connector , 8 layers PCB design , 4Gb x 4 kit - support Intel XMP (eXtreme Memory Profiles) , ddr3-2666 , CL12 , 1.65v - 240pin

Specifications

Features:

Corsair dominator platinum 2666mhz ddr3 desktop memory kit

- The new heatspreader design incorporates dual-channel dhx cooling to efficiently pull heat away from the pcb.
- Corsair dominator platinum builds on the legacy of the world's most awarded high-performance memory, adding a striking new industrial design and led lighting effects.
- Like all dominator memory modules, they are built using only select memory ics, highly-screened for performance and stability, and feature our patented dhx (dual-path heat exchange) cooling technology, so you can push them to the limit.

Fanatical screening for phenomenal performance

- Dominator platinum memory modules are assembled using a est of the best ic screening process.
- Individual ics are hand-screened to our highest performance threshold, and then the assembled modules undergo more rounds of rigorous screening and stability testing.
- The result is reliable performance under extreme pressure.

Cooler temperatures for better overclocking headroom

- Excess heat limits overclocking potential, reduces performance, and can even lead to shorter component life.
- Our patented dual-channel dhx cooling system pulls heat away from the modules and allows dominator platinum to run at cooler temperatures than lesser memory kits.
- This advanced cooling technology, combined with our relentless screening, delivers phenomenal overclocking potential

ComX Computers

Product Specification Sheet

Specifications	
Product Code	ME-C4P26D12x4
Product Line	Dominator Platinum
Memory Type	Desktop
Module Name	PC3-21300
Memory Technology	DDR3
Number of Modules	4
Module Capacity	4 GB
Memory Socket	240-pin DIMM
Features	
Error Correcting Codes (ECC)	-
Registered	-
Cooling	Heatsink
Performance	
Max Clock Frequency	2666 MHz
CAS Latency	CL12
Latency Timings	
Voltage	1.65 volts
