Specifications

Overview:

Prey on the competition with HyperX Predator DDR4, offering low CAS latency and the most aggressive timings on high-speed modules for a new generation of performance. HyperX Predator's Intel XMP profiles are optimised for X99 motherboards for compatibility and easy overclocking. Like you, Predator DDR4 keeps its cool while gaming, for a cooler and quieter PC. Stand out from the crowd and maximise heat dissipation with Predator's signature tall heat sink, now in black.
