Apple iPad mini Wi-Fi Cell 32GB Silver Tablet PC with Retina display

Product Overview

Apple iPad mini Wi-Fi Cell 32GB Silver Tablet PC with Retina display

Specifications

Features:

7.9-inch Retina display
Photos and videos look incredibly detailed and text is razor sharp on the stunning Retina display, which features over 3.1 million pixels - a million more than an HDTV.

Thin and light design
iPad mini is incredibly powerful and capable, with advanced features like iSight and FaceTime HD cameras. Yet you can still hold it in one hand.

A7 chip
The powerful and power-efficient A7 chip with 64-bit architecture makes everything remarkably responsive - while still delivering up to 10 hours of battery life.

Ultrafast wireless
Now you can get up to 2x faster Wi-Fi performance using 802.11n with MIMO. And the Wi-Fi + Cellular model supports more LTE bands for fast connections the world over.

Powerful apps included
iPad comes with great apps for sending email, browsing the web, and making video calls. It also includes apps that let you do amazing things with your photos, movies, music, documents, presentations, and spreadsheets.

Over 475,000 apps on the App Store
No matter what you love to do, there's probably an app for that. And because these apps are made specifically for iPad, they take full advantage of its advanced technologies.
