MI-24DC48DC-300

Micro Instruments DC-DC 24VDC to 48VDC (6.25A) converter

Product Overview

Micro Instruments DC-DC 24VDC to 48VDC (6.25A) converter, 24VDC Input, 48VDC (6.25A) Output, 250W

Specifications

Features:

- These Mi DC-DC Boost Converters was designed for robustness to power IT related equipment like camera's, Wi-Fi radios, switches and routers.
- Easy connections on the front board with large input and output terminals, standard ATO Blade fuses protect the input and output of the converter.
- Power out ok Led indication.
- Soft start electronic circuitry for the power supply reduces inrush currents especially with loads connected.
- Pulse by pulse current limit protection to protect the Converter from short circuits.
