Specifications

Overview:

KS Steering Wheel

Introducing the MOZA KS Sim Racing Steering Wheel, a brand-new offering designed specifically for GT enthusiasts. This 300mm butterfly-style GT wheel brings the thrill of the track to your fingertips. Crafted with carbon fiber-reinforced composites and TPE rubber grips, it combines durability and comfort for a superior racing experience. The programmable short-travel RGB buttons allow for personalized controls and extreme input accuracy. With hall sensor magnetic paddles featuring dual clutch functionality, gear shifts are seamless and precise. Embrace an open ecosystem with compatibility across all MOZA bases and 3rd party wheelbases via our MOZA Universal Hub Kit PC adapter. Enjoy the efficiency of the Real Racing QR system and take full control with the MOZA Pit House Control Suite.

Features:

Wheelbase

> The KS steering wheel is compatible with ALL MOZA Bases and compatible with

3rd Party Wheelbases

via an adapter to directly connect the PC.
