Apple iPad Pro Gold 12.9" LED-backlit Multi-Touch A10X Fusion chip with 64-bit architecture Embedded M10 coprocessor Wi-Fi 256GB iOS 11 Tablet

Product Overview

Apple iPad Pro Gold 12.9" (diagonal) LED-backlit Multi-Touch display, A10X Fusion chip with 64-bit architecture Embedded M10 coprocessor, Wi-Fi, 256GB, iOS 11

Specifications

Overview:

No matter the task, the new iPad Pro is up to it - and then some. It offers far more power than most PC laptops, yet is delightfully simple to use. The redesigned Retina display is as stunning to look at as it is to touch. And it all comes together with iOS, the world's most advanced mobile operating system. iPad Pro. Everything you want modern computing to be. Now even, well, better.

Features:

The most advanced display on the planet.
iPad has always offered the ultimate Multi-Touch experience. The redesigned Retina display on iPad Pro sets a whole new standard. It's not just brighter and less reflective - with ProMotion technology, it's also far more responsive. So whether you're scrolling through pages in Safari or playing an intense 3D game, everything feels utterly smooth, fast, and immersive.

ProMotion. You've never seen or felt anything like it.
The new iPad Pro Retina display features ProMotion technology, with support for a 120Hz refresh rate. So movies and videos look spectacular, while games play smoothly without distracting artifacts. Fast, it turns out, is incredibly beautiful. And however you use the display - with your finger or Apple Pencil - everything will feel more responsive.

600 nits brightness
Enhanced brightness makes it easier than ever to see, wherever you are.

P3 wide color display
With a wide P3 color gamut, you get more vibrant greens and reds for truer-to-life images and videos.

1.8% reflectivity

Apple's custom-designed antireflective coating makes the display clearer and more readable wherever you take your iPad.

Multitasking. Redesigned from the swipe up.
Doing more than ever is easier than ever. In iOS 11, an all-new Dock makes it simple to open recently used apps and files. And when you use Slide Over or Split View, both apps stay active so you can work with them simultaneously. So edit an image in Adobe Photoshop Fix while creating a web page. Or use Safari to plan your next vacation while confirming dates in Calendar. iPad Pro and iOS 11 are perfect for doing everything you want to do - at once.

More powerful than most PC laptops.
The A10X Fusion chip with 64-bit architecture and six cores puts incredible power in your hands. So you can edit a 4K video on the go. Render an elaborate 3D model. Or create and mark up complex documents and presentations. Easily. All on a device that still delivers all-day battery life.

A10X Fusion chip
The A10X Fusion chip makes complex tasks like working with two apps at once, retouching high-resolution photos, or playing games feel effortless.

ISP image signal processor
The Apple-designed image signal processor uses machine learning to make the photos and video you capture look amazing.

Up to 10-hour battery life
Stay productive and creative with all-day battery life.

Now even sharper.
The increased refresh rate of the new iPad Pro display makes Apple Pencil2 feel even more responsive and natural. No other digital pencil lets you write, mark up, and draw with such pixel-perfect precision.

Instant Notes
When inspiration strikes, write. Simply tap Apple Pencil on your iPad Lock screen and a note opens.

Instant Markup
Sign documents, annotate PDFs, or draw on a screenshot with ease.

Inline Drawing
Easily sketch, draw, or write directly alongside text in Notes and Mail.

Searchable Handwriting
Easily search for handwritten text and characters. So you can write it now and find it later.

A monumental leap for iPad.
iOS 11 brings iPad to life like never before. New features and capabilities let you get more done, more quickly and easily, making it a phenomenally powerful and personal experience.

Dock
The all-new Dock makes it easier to access your favorite and recently used apps and files. It's especially useful for multitasking or navigating through apps.

Files
The new Files app brings all your files together no matter where they are, from iCloud to Dropbox.

Drag and Drop
Drag and Drop gives you a new way to move things around. It's beautifully designed for Multi-Touch, so you can simply and

smoothly move text, photos, and files from one app to another. With just a finger.

App Switcher
The redesigned App Switcher makes changing apps as quick as a swipe. It even remembers the combinations of apps you've multitasked with previously.

Multitasking
Multitasking is more powerful and intuitive than ever. You can open a second app right from the Dock, and both apps now stay active in Slide Over and Split View.

Apple Pencil
iOS 11 makes Apple Pencil even more useful. Easily sketch, draw, or write directly alongside text in Notes. You can even write a note instantly by tapping on your iPad Lock screen with Apple Pencil.

Augmented Reality
iOS is the world's largest augmented reality platform. Games and apps now offer fantastically immersive and fluid experiences that go far beyond the screen. Taking advantage of the stunning Retina display and powerful cameras on iPad, you can digitally redecorate your home, explore a city you've never visited, or even walk with dinosaurs. The possibilities are endless.

The power of iPad. Times 1.3 million.
iPad is a powerful way to work, play, and learn. With over a million apps designed to take advantage of its large Multi-Touch display and powerful chip, it can transform the way you do the things you love.

Barely a pound. Tons of capability.
Even though it's packed with amazing performance, an advanced display, two cameras, ultrafast wireless, and all-day battery life, iPad Pro is still sleek and compact. So you can go just about anywhere and do just about anything.

Wireless
Browse the web, stream video, and share documents faster from pretty much anywhere with 802.11ac Wi-Fi and LTE Advanced.3 And an embedded Apple SIM lets you connect using cellular data networks in over 180 countries and regions.

Cameras
iPad Pro features the same great cameras as iPhone 7. Advanced optical image stabilization and an $ƒ$/1.8 aperture make it even better for taking amazing photos and videos in low light. And wider color capture makes every selfie worthy of a gallery.

Touch ID
Touch ID uses an advanced fingerprint sensor that lets you unlock your iPad instantly and secure private data in apps. You can also use it to make purchases with Apple Pay within apps and on the web.

Smart Keyboard
Simply unfold the full-size Smart Keyboard - available for both the 10.5-inch and 12.9-inch iPad Pro - when you need it. Fold it to create a lightweight yet durable cover when you don't. It's as easy to use as it is to take with you.

Start something here. Finish it there.
Begin an email on your iPhone and finish it on iPad Pro. Or copy images, video, or text on your iPhone, then paste to your

iPad. You can even use AirDrop to quickly share files wirelessly between devices. iPhone and iPad Pro were designed to work not only with each other, but also with your Mac and Apple Watch.

iCloud. One place for everything that matters.
iCloud safely stores all your photos, music, apps, and more, keeping them up to date, secure, and accessible from any device.

Do even more on iPad Pro with iOS 11.
Watch short films that show how the new features in iOS 11 make iPad Pro - and you - even more capable. Get hands-on tips for using the all-new Dock, enhanced multitasking, the powerfully simple Files app, and more.

Cover it. Connect it. Love it.
From durable cases and covers to Apple Pencil and the Smart Keyboard, there's a world of accessories to help you get the most out of your iPad Pro.
