MRC-MS108GS

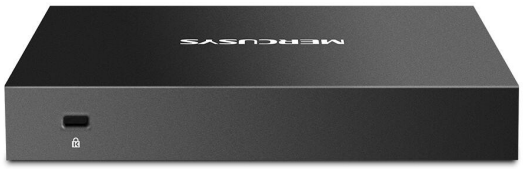

Mercusys MS108GS 8 Port Gigabit Desktop Switch

Product Overview

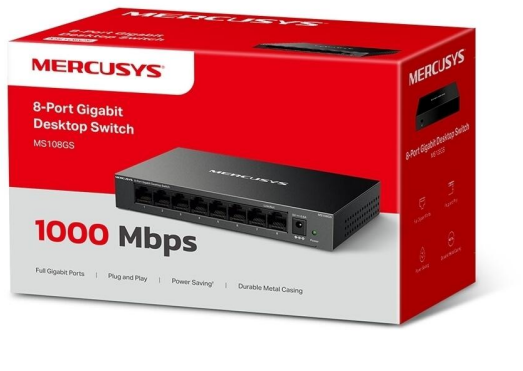

Mercusys MS108GS 8 Port Gigabit Desktop Switch, 8x Gigabit Ethernet Ports

Specifications

Overview Summary:

The Mercusys MS108GS 8 Port Gigabit Desktop Switch is a simple and reliable way to expand your wired network at home or in the office. With eight gigabit Ethernet ports, it delivers fast and stable connections for everyday devices while keeping setup effortless with true plug and play operation.

Built with a durable metal casing and silent operation, this desktop switch is ideal for neat workspaces and long-term use. Its compact design supports desktop or wall mounting, making it easy to fit into any network setup. Upgrade your network speed and reliability today and buy now for a hassle-free gigabit experience.

Performance tier: Entry-level gigabit networking

Uses: Home networks, small offices, desktop networking, connecting PCs, printers, smart TVs, IP cameras, gaming consoles

Overview:

The Mercusys MS108GS is an 8 port gigabit desktop switch designed to make wired network expansion fast, simple, and reliable. With full gigabit speeds on every port, it delivers smooth data transmission for demanding devices like 4K TVs, gaming consoles, and network storage. Its compact metal design supports both desktop placement and wall mounting, making it a practical choice for homes, small offices, and shared living spaces that need stable, high speed connectivity without complex setup.

Description:

The Mercusys MS108GS provides eight gigabit Ethernet ports for high speed wired connections, housed in a durable metal casing for efficient heat dissipation and long service life. It supports plug and play operation with no configuration required, runs silently with no fan noise, and uses energy saving Ethernet technology to reduce power consumption while maintaining consistent network performance.

Features:

Fast Gigabit Network Expansion
Expand your wired network instantly with eight 10/100/1000 Mbps Ethernet ports that offer speeds up to ten times faster than standard Fast Ethernet. This switch handles high bandwidth tasks with ease, making it suitable for both entertainment and productivity setups.

- 4K Ultra HD televisions
- Desktop and laptop computers
- Network printers
- IP security cameras
- Gaming consoles

Built for Quiet and Long Term Use
The solid metal casing improves heat dissipation and protects internal components, helping ensure stable operation over time. With fanless design, the switch operates silently, making it ideal for noise sensitive environments like bedrooms, offices, or study areas.

- Metal housing for better cooling
- Silent fanless operation
- Desktop or wall mounting options

Simple Setup with No Configuration
Getting started takes only seconds. Connect your devices using Ethernet cables and the switch automatically handles the rest. There is no software to install and no technical configuration required.

Stable and Dependable Connectivity

Advanced MAC address learning and support for half and full duplex communication help maintain smooth and uninterrupted data flow. Each unit is tested to ensure dependable performance for everyday networking needs.

Energy Efficient Ethernet Technology

The switch intelligently adjusts power usage based on connection status and cable length. This helps reduce energy consumption while keeping your network running efficiently.

Specifications	
Product Code	MRC-MS108GS
Software	
Transfer Method	Store and Forward
Hardware	
Dimensions (W X D X H)	6.2 x 3.9 x 1.0 in
Interfaces	8 x 10/100/1000Mbps Ports, Auto-Negotiation, Auto-MDI/MDIX
External Power Supply	5V/0.6A
Standards and Protocols	IEEE 802.3, IEEE 802.3u, IEEE 802.3x CSMA/CD
Data Rates	10/100/1000Mbps at Half Duplex
	20/200/2000Mbps at Full Duplex
Buffer Capacity	4 Mbit
Jumbo Frame	15 KB
LED	Ethernet (1, 2, 3, 4, 5, 6, 7, 8), Power
Others	
Package Contents	8-Port Gigabit Desktop Switch (MS108GS)
	Power Adapter
	Quick Installation Guide
