Specifications

Features:

Next level adventure.

The most rugged and capable Apple Watch. Designed for outdoor adventures and supercharged workouts with a lightweight titanium case, extra-long battery life, and the brightest-ever display. Featuring double tap, a magical way to interact with Apple Watch, and Precision Finding to guide you to your iPhone.

Why Apple Watch Ultra 2?

Rugged, capable, and built to meet the demands of endurance athletes, outdoor adventurers, and water sports enthusiasts—with a specialized band for each. The S 9 SiP enables a superbright display and a magical new way to quickly and easily interact with your Apple Watch without touching the display. Up to 36 hours of battery life and 72 hours in Low Power Mode.

Carbon Neutral

ComX Computers

Product Specification Sheet

Apple Watch Ultra 2 paired with the latest Alpine Loop or Trail Loop is carbon neutral. about Apples commitment to the environment at apple.com/2030.

Extremely rugged, incredibly capable

49mm corrosion-resistant titanium case. Large Digital Crown and customizable Action button for instant control over a variety of functions. 100m water resistance.

Biggest, brightest display yet

Apples brightest Always-On Retina display is easy to see, even in harsh sunlight. More room for adding complications to customize your watch face and enough space to view six metrics at once.

The freedom of cellular

Cellular is built in. You can call and text without your iPhone, even overseas with international roaming. Stream your favorite music and podcasts. Get directions with Maps.

For athletes

Advanced metrics and views in the Workout app, including Heart Rate Zones, custom workouts, and new cycling workout views. Precision dual-frequency GPS provides incredible accuracy for calculating distance, pace, and route maps. Trail Loop is thin, light, and flexible, designed for all workout types.

For outdoor adventures

The Compass app delivers helpful views and details like elevation, incline, longitude, and latitude. See the last place where you had cellular reception. Mark your location with Compass Waypoints. Backtrack uses GPS to map where youve been so you can retrace your steps. Alpine Loop is rugged and secure to meet the needs of all outdoor adventurers.

For water sports enthusiasts

Made for recreational water sports, scuba, and freediving for descents to 40 meters. The Depth app shows the time, current depth, water temperature, duration under water, and maximum depth youve reached. The Oceanic+ app puts a dive computer on your wrist.(8)Ocean Band is light and flexible, with a titanium buckle andadjustable loop for a secure fit even during high-speed water sports. Features are subject to change.

Advanced Health and Safety features

Heart health notifications, the Blood Oxygen app, and the ECG app keep you informed and empowered when it comes to your health. Fall Detection and Crash Detection can connect you with emergency services in the event of a hard fall or a severe car crash. Hold the Action button to activate a siren that can be heard up to 600 feet away.
