MS-GM60-GAMING-MOUSE

Msi Clutch Gm60 Optical Wired Gaming Mouse

Product Overview

Msi Clutch Gm60 Optical Wired Gaming Mouse

Specifications

Features:

Control is Everything
Gamers can easily adjust detailed settings on the Clutch GM series mouse to fit their specific requirements or playstyle via MSI Gaming Center, like mouse illumination, macros, button assignment, and performance.

The Best Ergonomics
Every gamer is different and has a unique preference of how the ideal mouse should feel. The Clutch GM60 mouse allows you to completely customize the look & feel by using the included side grips and top cover. Using a system with magnets, changing the mouse is quick & easy.

Incredible Accuracy
Using the PixArt PMW3330 gaming-grade optical sensor, you have one of the most advanced and precise tracking sensors at your fingertips. The DPI values can be easily adjusted from 1 to 10,800 DPI by using the DPI switch or fine-tuned in the software to suit any game or situation.

RGB Mystic Light
Using MSI's RGB Mystic Light, gamers can easily change the appearance of the mouse by choosing from over millions of colors and multiple effects to match their setup. Using Mystic Light Sync, colors and effects can easily be synchronized with other RGB components and peripherals for a stunning show.

Adapt and Overcome
When the time comes for hard core gaming, you can count on the Clutch GM60's 3,000 Hz polling rate for lightning fast responsiveness to never miss a shot.

Built for Gaming
Getting a solid grip on your game requires a solid mouse that you can rely on. The Clutch GM60 mouse is crafted around a sturdy aluminum frame and uses special OMRON switches rated for 50+ million clicks. The USB cable on the GM60 is modular to enable easy transport and the ability to replace the USB cable in case of any damage.

Fully geared up

Included in the retail box are all the accessories gamers need to fully customize their Clutch GM60 mouse.
