

## MSI-ENJOY71

MSI Enjoy 71 7" LED Tablet PC

### Product Overview

MSI Enjoy 71 Tablet - Dual Core AML8726-MX 1.5GHz CPU, 1GB DDR3 Memory, 8GB ROM Storage, 7" LED 1024x600 IPS Panel, Wireless LAN 802.11 b/g/n @ 300Mbps, 0.3MP Front Cam + 2MP Rear Cam, Mini-HDMI, Micro USB, Mirco-SD, 3.5mm headphone jack, G-Sensor Accelerator

## Specifications

### Features:

#### Powerful 1.5GHz dual core processor

The Enjoy 71 packs the latest, fastest 1.5GHz dual core processor, enhancing overall performance for a seamless experience no matter what program you're running.

#### Smooth User Experience while Content Consumption

Whether you're checking and answering e-mails, browsing the Internet, or accessing media, the Enjoy 71 offers a smooth platform experience. When browsing, it performs on par with and even better than quad cores.

#### Thin 8.9mm, Light Metal Housing 299g

Only 8.9mm thin, the Enjoy 71 weighs in at only 299g. Slim, light, and handy, the Enjoy 71 sports a casing with MSI's own peacock blue with brushed metal finish for a chic, classy look.

#### Micro-USB data transfer technology

The Micro USB can be used for both transferring data and recharging, so you don't have to worry about data transfer problems, because you run out of power before you're done. The Enjoy 71 also supports OTG (On-The-Go) Cable which allows it to connect to various peripherals, such as phones, mice, keyboards, external hard drives, or printers, to greatly enhance the expandability of this tablet.

#### Supports HD Mini-HDMI

The Mini-HDMI transfer interface allows you to connect to a notebook computer or LED TV for a bright, faithful, hiccup-free picture. The Enjoy 71 can be the core of your own home cinema.

#### Dual Core GPU Optimized for IPS 7" LED Panel

Enjoy 71 comes with dual core GPU (Mali-400 MP2), high resolution Video DSP technology, 7-inch multipoint touch screen, IPS (in-plane-switching) for expanded viewing angle, and 1024x600 screen resolution. IPS offers optimized graphics stability and response time and when you watch videos with a friend, you don't have to worry about reduced viewing quality, because you have to view the screen from an angle.

#### Full High Definition 1080p Playback

The full HD 1080p (1920x1080) video resolution supports different video formats and when you're watching streaming video on the Internet, you don't have to worry about hardware limitations adversely affecting viewing quality. You can also connect the Enjoy 71 to larger monitors using the HDMI transfer interface for a truly cinematic experience.

#### Two-way camera

The Enjoy 71 sports camera lenses on both the front and back. The front lens boasts 0.30 megapixels, so you can enjoy smooth conferencing with friends anytime, anywhere. The 2 megapixels rear lens is ideal for more technical photography that you can share with others.

#### Micro SD slot to expand memory capacity

The Enjoy 71's Micro-SD slot allows you to insert an expandable Micro SD memory card (up to 32GB), which, when coupled with the original 8GB, gives you a potential total of up to 40GB.
