Overview:

SP-HF1800A is the new 3-way Hi-Fi wooden speaker system with 50 watts RMS audio output. With this 3-way design, SP-HF1800A uses Hi-Fi crossover technology that makes each speaker unit respond to high, middle and low frequency respectively.

SP-HF1800A integrates all sound into the perfect enveloping effects around the listener with magnificent, balance, vivid, and richer quality. The lower 4" woofer is for long and deep bass without distraction less than 500Hz frequency. For personal sound preference, just adjust the Bass and Treble controls.

It also has an extra line-in jack on the front panel for connecting to an iPod, MP3 player, or CD player without disconnecting the speakers from the PC.
