Specifications

Overview:

Beats Solo Buds - True Wireless Bluetooth Earbuds

- Fully Custom Acoustic Architecture
- Ergonomic Design for a Natural Fit
- Up to 18 Hours of Battery Life
- Compatible withiOS and Android

Features:

Sound - Designed for music first.

Every design decision was focused on accurate music reproduction - from the drivers to the vents to the position of each intricate component inside.

The result? Cleanly balanced tuning that gives you the full range and emotion of all your music, as the artists intended.

Custom-built sound system.

Dual-layer drivers minimize micro-distortions to ensure high-fidelity sound with uncompromising clarity and warmth.

Each fully custom driver is positioned parallel to the ear nozzle to deliver sound optimally to your ears.

Pocket Size - Our smallest case. Ever.

Beats Solo Buds feature the tiniest case we've ever made, making these powerful earbuds the ultimate on-the-go companion.

All about airflow.

Each bud's laser-cut vents are engineered to improve audio performance, especially for bass, while gently reducing air pressure for extra comfort.

Fit - Fit for any ear.

The earbuds' ergonomic design features nozzles angled to match the natural shape of the ear canal.

Beats Solos Buds come with four ear tip sizes (XS, S, M, L) - including our newest extra-small option - to help ensure ultimate comfort and passive noise isolation.

Battery - Charge from your phone.

Or tablet. Or wall outlet. When it's time to recharge, seat your earbuds in the case while connected to a USB-C cable.

A 5-minute Fast Fuel charge provides up to 1 hour of listening time when you need it quick.

Up to 18 hours of battery life.

With up to 18 hours of battery life and their comfortable ergonomic design, Beats Solo Buds are built for extended listening.

Compatibility - Works with iOS. And Android.

Native compatibility ensures seamless one-touch pairing, automatic pre-pairing across your devices, plus Find My or Find My Device - for everyone.

Call Quality - Crystal-clear calls.

Each earbud is equipped with a leading-edge microphone powered by an advanced noise-learning algorithm to help deliver exceptional call quality.

Enjoy extended range with fewer dropouts thanks to industry-leading Class 1 Bluetooth.

Controls - On-device controls.

Customizable on-ear functions allow you to control your music, take calls and activate your voice assistant by pressing the ' b' button. You can also configure the ' b' button in iOS settings or your Beats app to control your volume (up on one side, down on the other).

In the box

- Beats Solo Buds earbuds
- Carrying case
- Eartips with four size options
- Warranty card

(Power adapter and USB-C charging cable sold separately)
