Overview:

Start Teams Meeting with MVC640 Bundle Solution

Designed for medium meeting rooms, the Yealink MVC640 Microsoft Teams Room system is a bundle video solution with MCore mini-PC, UVC84 4K camera, MSpeech speakerphone and touch panel, bringing everything you need to interact, connect, and collaborate with internal and external users seamlessly and intelligently.

4K Performance Capture All Movements

Featured 4K sensor and 12x optical zoom, the UVC84 camera achieves a gorgeous video experience perfectly for medium and large rooms. The Auto Framing enables the UVC84 to recognize attendees and frame everyone automatically in the most appropriate view in rooms of any size. The auto-privacy protection design secures the safety of your meetings.

Pickup Ideas from Every Seats

Supporting medium-size video conference rooms, the MSpeech speakerphone built-in three microphone matrix and 4W HD speakers deliver HD clarity and a great voice pickup range. The AI-powered features with voice recognition, voice transcription, and Cortana, bring more possibilities in the future of intelligent Microsoft Teams Rooms.

Multi-mounting Options Simplified Connections

The MCore mini-PC can be set up according to particular room layout. Mounting on the wall, sticking to the table can be realized. Also, in all Yealink MVC II video conference room systems, the MCore cable management solution integrates data and power supply into one CAT5e cable, simplifying the complicated connections and reducing the deployment time of the whole video conference kits.

One-Click to Share

Users can enjoy plugging in the Yealink WPP20 with one click to share the screen wirelessly via WPP20 within the video conference kits, or connecting the laptop to the meeting through the USB-C or HDMI port easily. In the Yealink MVC II video conference room system, all participants have the flexibility of choosing either wireless or wired ways of content sharing.

Remote Management

Yealink MVC II series video conference room solution supports the Yealink Device Management Platform/Cloud Service. You can manage, monitor, configure, update and diagnose all Yealink audio and video devices within the video conference kits and peripherals on this platform remotely.
