Specifications

Overview

Get the party started with the Premium Hi-fi Component Audio System's Beat Waving and 3D Beat Lighting. Visualise the high-wattage sound and experience superior sound quality. See and feel the rhythm and beat through Beat Waving which illuminates the speaker in sync with the music. 3D Beat Lighting perfectly flashes lights and patterns that flow with the music, transforming any party place to the atmosphere of your favourite club.

Features

The perfect party atmosphere anywhere
Get the party started with the Premium Hi-fi Component Audio System's Beat Waving and 3D Beat Lighting. Visualise the high-wattage sound and experience superior sound quality. See and feel the rhythm and beat through Beat Waving which illuminates the speaker in sync with the music. 3D Beat Lighting perfectly flashes lights and patterns that flow with the music, transforming any party place to the atmosphere of your favourite club.

Be the DJ of your party
Who said you can't have everything? The Premium Hi-fi Component Audio System gives you the perfect opportunity to be the DJ of your own party. Now hosting a party at home is easier than ever. Share and mix your music with the seven different effect modes like Flanger, Chorus, WahWah and Panning that can also play multiple effects simultaneously. The feature is easy to use and is designed for you to freely control each effect to enhance the sound of the music and party. Stop at nothing with this DJ Beat function.

Power and sound to move the party
Upgrade your sound system with Samsung's Giga Sound Beat and Powerful Sound. The Premium Hi-fi Component Audio System is the perfect sound system to have a blast. Powerful Sound features ultra-high wattages that promise to deliver an earth-shaking sound experience while Giga Sound Beat's superior performance is aimed at delivering mesmerizing sound that will bring you to your feet. Plus, its super deep bass and pristine clear high-frequency levels produce sound quality that you can feel in your bones you as your favourite track is playing.

Transform your living room to a stadium
The Samsung Mini Component System comes with a feature that is sure to make you feel that you're in the midst of a cheering crowd at a football game. The new Caster EQ enhances the clarity of each commentator while the Stadium EQ lets you experience all the shouts and cheers of the game from your living room. Enjoy the game without the hassle of going there.

Don't stop the music
With the Samsung Mini Component, you will never be without music. With the USB CD auto change function, music is always with you. It automatically switches between your CD and USB when music stops on either one, leaving you to have fun at your party. Now your party will never end!

Don't miss your favourite radio program even when you are away.
Enjoy your favourite radio program once you have Samsung Audio System's Radio Recording Timer feature. By letting your audio start recording at a particular time that you've set and record only for a certain length of time as you like, Samsung Audio System allows you not to miss any single radio program that you like. Be flexible with your schedule, not being restricted by the fixed time of your favourite radio program.

Make your music into MP3s easily
Enjoy fast and flexible MP3 creation from a range of audio sources. With the built-in EZ MP3 Maker, you can use your audio system to make high-quality MP3 files via CD ripping or recording from FM radio and AUX input. With a suitable cable, you can even connect a turntable and transfer vinyl records into digital media. It's easy to convert your music collection into this convenient modern format.

Transfer the data between 2 USBs easily
You don't need any hassles in transferring the data in one USB to another one. Samsung Audio System's 'Port to Port copy' feature brings the convenience to your life by transferring data between 2 USBs without connecting any wires.

CD Ripping
Take your favourite tracks with you on your MP3 player. In minutes, you can convert your CDs to MP3s with the CD ripping feature. Extract audio tracks from your CDs simply by inserting your CD and pressing the ripping button.
