Product Overview

Samsung Giga Sound Beat Mini Component System, 3400W, 2.2 Ch, 8"/ 15", BT Power On, Dance Time, Football Effect, 3 Best Lighting, DJ Beat Wave (25), D Ripping, 2 x USB in outs, Giga Sound Bass Boost, FM Radio, TV Sound Connect

Specifications

Overview:

Play your tracks out LOUD through CD, USB, Aux-in or Bluetooth

Features:

Get ready to party with powerful sound and bass
The Samsung Mini can make a big difference at your party. Thanks to the powerful mini component, it delivers 3,400W of sound that you can really hear and feel. It can deliver a sound experience as intense as if you're standing next to a helicopter. The rich bass comes with increased sound pressure level (SPL) made possible with a cloth wave edge unit that is boosted by the built-in 15" subwoofer.

Built-in lighting effects to accompany your music
Now you don't need additional equipment to enjoy a vibrant light show at your party. The Samsung Mini has its own built-in lighting effects. Samsung's enhanced Beat Waving II lets you choose from a great range of electrifying patterns that pulse to the beat of the music, including waves, waterfall patterns and more. The lighting even responds to the Samsung Mini's DJ Beat effects as well as its built-in Dance Time music tracks.

You can be the DJ and rock the party
Make sure everyone remembers your party. Anyone can be the DJ with the new Samsung Mini. It has more than double the effects offered by earlier models. Not only can you use flanger, chorus, wahwah and panning, but also tremolo, fuzz, phaser and slapback. Control the tempo with the DJ jog dial and remove breaks between tracks with Non-Stop Music Relay to play your music seamlessly. Dance Time plays the Mini's own built-in dance music without an external audio source, complete with spectacular lighting.

Football Mode brings the stadium to you
Capture all the excitement of the stadium with Football Mode, which optimise the sound so you can truly experience the roaring cheer of the crowd with the Stadium function or the match commentary with the Announcer function. It's easy: simply connect the Mini to your TV wirelessly using TV Sound Connect and switch on Football Mode. You can even turn on fun lighting and sound effects that add to the excitement. Just push the hot key on the remote control and it's like you're actually there at the big game.

Activate the speakers using your smartphone
Thanks to Bluetooth compatibility, you can use your smartphone to turn your speakers on remotely. Pair the speakers and your smartphone once, and you can quickly and easily power on your speakers by selecting them on your smartphone. It's that simple. As long as the speakers are plugged into a power source, you can wake it up with just one touch and enjoy high quality audio.

Entertainment made easy
This entertainment system is built for complete convenience. With multiple connections from your favourite devices like MP3 or CD players, it's easy to convert your music into MP3 format with the EZ MP3 Maker. Move your favourite CD albums to MP3 format with CD Ripping and use the 2 USB copy to copy feature to transfer songs between two USBs. Set the Radio Rec. Timer function and record your favourite radio programme. The USB Total Solution is easy, simple and hassle-free.
