Specifications

Features:

The ultimate sports and adventure watch.

Apple Watch Ultra 2, the ultimate sports and adventure watch, is now available in a satin black titanium finish. It features multi-day battery life, precision dual-frequency GPS and Apple's brightest display ever. It also has a durable titanium case, sapphire front crystal and customisable Action button.

Why Apple Watch Ultra 2 ?

Meet the ultimate sports and adventure watch. Advanced features for runners, cyclists, swimmers, hikers, divers and more. Rugged titanium case, now available in satin black. Super-bright Always-On Retina display. Incredibly accurate precision dual-frequency GPS. Powerful health, safety and connectivity features. And up to 36 hours of battery life for normal use and 72 hours in Low Power Mode.

Extremely Rugged, Incredibly Capable

49mm corrosion-resistant titanium case. Sapphire front crystal. Large Digital Crown and customisable Action button for instant control over a variety of functions. Tested to MIL-STD 810H.4 Water resistance 100m.

The Freedom of cellular -

With a mobile service plan, you can call and text without your iPhone nearby. Stream your favourite music and podcasts. Get directions with Maps.

Maximise your training

Advanced metrics, views and experiences in the Workout app, including Heart Rate Zones, Custom Workouts and training load, which can provide insights into the impact your workouts have on your body over time.

For runners

Precision dual-frequency GPS for incredible accuracy. Automatic track detection. Advanced running form metrics to help understand how efficiently you run. Customisable workouts that can include warm-ups, recovery intervals and time to cool down.

For Cyclists

Powerful metrics take your cycling to the next level. See your speed, heart rate and elevation in workout views. Start a cycling workout from your watch and it will automatically appear as a Live Activity on your iPhone, making it easier to see. Connect directly to Bluetooth accessories like power meters so you can see Functional Threshold Power and cadence.

For hikers

Offline maps let you navigate with just your Apple Watch. And the Compass app is packed with essential navigation tools like current heading, elevation, longitude and latitude. Find the last place where you had mobile reception. Mark your location with Compass Waypoints. Use Backtrack to map where you've been and retrace your steps.

For swimmers

ComX Computers

Product Specification Sheet

Automatic stroke detection, length count, splits, sets and Custom Workouts for pool swimmers. Open water swimmers can view a route map in their workout summary. See tide conditions at over 115,000 beaches worldwide with the Tides app.

For divers

Full dive computer capabilities with the Oceanic+ app. Senses depth to 40 metres along with water temperature. Certified EN13319.

Advanced health and safety features -

Take an ECG. Get notifications for irregular heart rhythm. See overnight health metrics. And see how much time you spent in REM, Core or Deep sleep with sleep stages. Connect automatically to emergency services in the event of a hard fall or a serious car crash. And call for emergency help or activate a siren with the press of a button.
