Features:

Unlock Creative Teamwork

The Yealink MeetingBoard collaboration display effectively facilitates powerful digital collaboration by combining everything in the room, from the computing unit to a wide 65-inch touchscreen display, 4K camera, microphones arrays, speakers, and built-in Microsoft Teams. The Android 10 OS and an Octa-core high-performance chipset offer maximum performance. By simply connecting the power cable, users can quickly and easily enjoy video conferencing and whiteboard collaborating, with remote integrated management capabilities for those working from home or off-site.

Write Smoothly - Create Freely

MeetingBoard's responsive display and inventive features such as premium inking, collaborative diagrams, fluid components, and other rich content, help boost team creativity and productivity. Powered by the Microsoft Whiteboarding, it ensures a seamless real-time collaboration during brainstorming, project planning or problem solving.

See Everyone - More Engaged

With the 4K camera and powerful encoding and decoding capabilities, MeetingBoard realizes truly smooth and stable HD Teams meetings. Based with the AI technology, the camera brings Auto Framing, Speaker Tracking, and additional multi-people feeds underway for an enhanced meeting experience.

Hear and Be Heard, Always Clear

With built-in 16 MEMS beamforming microphones and an array of six powerful speakers - 4 full-range speakers and 2 tweeters.

The MeetingBoard provided an HD full-duplex stereo audio experience with up to 8 meters of coverage. Equipped with an independent audio processor and Yealink AI-based noise concellation algorithm, it ensures voice clarity even in open space.

Workspace Simplified

TV cart or wall mount, choose the way you like. Single-cable setup, get started within minutes. Yealink MeetingBoard is easy to move around and turn all your rooms into a collaborative workspace.
