Mo-3CWP

3dconnexion Cadmouse Wireless Pro 3D Space Series Mouse

Product Overview

3dconnexion Cadmouse Wireless Pro (with extra space for thumb rest + smartwheel 2) - USB wired or 2.4Ghz receiver or Bluetooth, designed for CAD professional, Intelligent Ergonomic Design with middle button, side quick zoom buttons or scroll zoom in/out, 7200dpi, 1000hz poll rate, 7x buttons (with quick-access gesture button) - ideal to co-work with 3D Space series mouse, with tailored carry case

Specifications

Features:

The ultimate wireless mouse for CAD professionals
CadMouse Pro Wireless is the full-size mouse designed specifically for the modern CAD professional. Offering superior ergonomics, a dedicated middle mouse button, high resolution optical sensor, up to three-months use between charges*, and 50 million clicks-worth of durability for the daily use CAD specialist, CadMouse Pro Wireless is the mainstay of any CAD toolkit.

Ergonomic Design
Angled shape optimized for natural wrist positioning with a dedicated middle mouse button

Maximum Durability
High-quality, long-life switches made with resilient components and materials

High Performance
High capacity rechargeable battery and a high precision, optical sensor

Smart Mouse Wheel 2
Smooth scrolling and click-to-click zooming in CAD applications

Quick Zoom
Effortlessly zoom in-and-out of geometry with a single click

Radial Menu
Provides quick access to your favorite application commands

Professional Ergonomic Design
Purpose-built for supremely comfortable use over long CAD sessions, CadMouse Pro Wireless feels completely organic, with ergonomic features creating an experience that greatly reduces the muscle and tendon discomfort frequently encountered during long CAD sessions.

The Button for CAD Professionals
The middle mouse button is designed specifically for CAD users who require a third button to access their application functions. Using almost 60g less force than a scroll wheel click, the middle mouse button is ideal for CAD applications.

More Comfort, Less Strain
Designed with an angled shape, CadMouse Pro Wireless creates a more natural hand posture, reducing the muscle and tendon discomfort frequently encountered with traditional mice.

The Ideal Thumb Rest
Complementing its slanted shape, the incurvated thumb rest gives thumbs an ergonomically natural place to hold onto the mouse and easy access to its side buttons.

Concave Button Shape
The three main buttons of CadMouse Pro Wireless offer a concave design, sculpted to guild the fingertips to their ideal positioning, for an organic, natural feel.

A Natural Extension of the Hand
The combination of ergonomic design features and intelligent software come together in a full-size mouse to create an organically connected workflow you can feel.

Durability to Last
The average CAD user clicks thousands of times during a standard workday. CadMouse Pro Wireless is designed to handle over 50 million clicks to its main buttons, giving users mechanical longevity a CAD professional should expect from a premium CAD product. Low friction, wear resistant polytetrafluoroethylene (PTFE) feet give CadMouse Pro Wireless smooth, precision movements long after the average mouse.

High Precision & Performance
The precision optical sensor, high adaptive polling rate and specially developed polytetrafluoroethylene (PFTE) feet combine to create an experience of controlled performance that feels like CadMouse Pro Wireless is directly hardwired to the CAD user's every action. This immediacy and precision are maintained when running off its rechargeable lithium polymer battery, providing up to three months of worry-free wireless use between charges.

Triple Connectivity
Either via Bluetooth® Low Energy, the 3Dconnexion Universal Reciever, or micro USB cable, CadMouse Pro Wireless offers convenient connectivity wherever you are.

Professional Scroll & Zoom Navigation in CAD
CAD professionals need to zoom in-and-out of 3D environments with precision, and an ability to scroll through long documents with control and efficiency during a fast-paced workday. Thanks to improved 3DxWare 10 Software, conveniently located QuickZoom buttons, and an advanced Smart Scroll Wheel 2, CAD users will experience meticulous control of their drawings and 3D images, and easy document navigation tailored to their needs.

Smart Mouse Wheel 2
Adjustable smart scrolling speed with inertia in documents and browsers is ideal for working in many-paged documents, allowing the user to find specific pages quickly and easily.

QuickZoom

The QuickZoom feature is easy to use; simply press the thumb buttons to zoom in and out of the cursor's position in your drawing or 3D model; fine tune the zoom level by continuing to keep the corresponding button pressed.

Easy Access to Application Commands
Clicking the Gesture Button behind the Smart Scroll Wheel 2 opens an application or environment-specific radial menu, giving CAD users access to their favorite commands with a simple mouse gesture. 3DxWare 10 software allows custom radial menus for each CAD environment.

Tailored Carry Case Included
Built and tested in the 3Dconnexion labs, the compact, lightweight, semi-rigid carry case transports CadMouse Pro Wireless easily and safely for the modern CAD professional on the move.

Specifications	
Product Code	Mo-3CWP
Main Features	7 buttons
	Ergonomic shape for comfortable CAD sessions
	Specially developed PTFE feet
	Smart Mouse Wheel 2
	QuickZoom
	Customizable radial menu
Sensor	High resolution optical sensor: 7,200 DPI
	Adaptive polling rates: 90Hz (Bluetooth)
	125Hz (Universal Receiver) and 1, 000Hz (cabled)
Wireless & Connectivity	3Dconnexion 2.4GHz Wireless Technology
	Bluetooth Low Energy
	Micro USB Cable
Dimensions & Weight	Length: 126 mm / 5.0"
	Width: 74 mm / 2.9"
	Height: 44 mm / 1.7"
	Weight: 140 g / 0.31 lb / 4,94 oz
Battery	Battery life: 3 months
	Rechargeable lithium polymer with 1100 mAh
	Charging time: 2 minutes for one day of operation
	(7 hours for a full recharge)

Package Contents	3Dconnexion CadMouse Pro Wireless
	3Dconnexion Universal Receiver
	Carry Case
	Braided micro USB cable 1,5 m
Supported Operating Systems	Microsoft Windows, macOS (coming soon)
	Required: Bluetooth Low Energy
