Specifications

Features:

Supercharge your MOBA and MMO Gameplay
The SCIMITAR PRO RGB gaming mouse advances your game with custom 16000 DPI optical sensor, on-board profile storage with hardware macro playback and pro-proven Key Slider™ macro button control system.

Exclusive Key Slider™ System
Adjust button positions up to 8mm and securely lock them into place with a patent-pending macro control system that keeps every key within reach for any playstyle. Textured side button keycaps enhance grip and feel for consistent, tactile feedback and precision control.

Refined Button Design
The 12 mechanical side buttons are designed to pro player specifications for consistent tactile feedback and precise actuation. Textured side button keycaps provide enhanced grip and feel.

Take Your Game on the Road
As long as you have your mouse, you have your preferred settings. Three predefined MMO/MOBA profiles or create your own profile with custom actions and lighting effects.

Zero In On Your Target
Make every move count with an ultra-accurate, 16000 dpi high-speed tracking engine that allows settings down to 1 DPI steps and fine-tuning to virtually any mouse pad.

Fully Optimized
Tune the SCIMITAR PRO to your mousepad surface for optimal sensor precision and responsiveness.

Dynamic Multicolor Backlighting
Immerse yourself in the game with customizable lighting across 4 different zones for nearly unlimited lighting adjustability.

Compatible with CUE
Program custom MMO timer countdowns, double macros, DPI matrices, and more.

Compatibility:

- A PC with a USB port
- Windows 10, Windows 8 or Windows 7
- An internet connection is required to download the Corsair Utility Engine software
