Logitech G603 Wireless Gaming Mouse

Product Overview

Logitech 910-005101 G603 Wireless Gaming Mouse - WiFi+ Bluetooth dual connection connect to multiple devices, PMW3366 adjustable 200->12000dpi optical sensor, rubber side grips, onboard memory with 6 programmable buttons, Max. Acceleration: 40G, 400iPS, 1000hz report rate - USB

Specifications

Features:

Play Without Limits
G603, with the revolutionary HERO sensor and LIGHTSPEED wireless technology, delivers exceptionally accurate and consistent performance and a breakthrough in battery life setting a new standard in wireless gaming.

Next-Gen HERO Gaming Sensor
HERO is a revolutionary new optical sensor designed by Logitech G to deliver class-leading performance and up to 10 times the power efficiency (compared to previous gen). HERO sensor delivers exceptionally accurate and consistent performance with zero smoothing, filtering or acceleration from 200 to 12,000 DPI.

LIGHTSPEED Wireless
Through end-to-end engineering and design, Logitech G developed a robust wireless solution to solve the fundamental problems of latency, stability, and connectivity. The end result is LIGHTSPEED, a pro-grade wireless solution, that achieves wired-like performance.

Advanced Power Management
Quickly switch between HI and LO modes with the flick of a switch. In HI mode, G603 delivers peak performance with LIGHTSPEED 1ms report rate and up to 500 hours of non-stop gaming. When not gaming, simply switch to LO mode and extend battery life. LO mode reports at 8 ms for up to 18 months of use with 2 AA batteries.

Connect to Multiple Devices
Dual connectivity with LIGHTSPEED and Bluetooth® allows you to connect to and control multiple devices across platforms. Easily toggle between the two connected devices with a press of a button.

Amazing Battery Life
G603 wireless gaming mouse delivers up to 500 hours on 2 AA batteries-twice as long as our previous generation. Even with a

single battery the G603 can last through up to 500 matches of League of Legends®. You can also choose which side to place a single battery with no impact to performance for custom balancing. When battery is at 15%, both LED status indicator and Logitech Gaming Software (LGS) will notify you before the critical moment.

Six Programmable Buttons
The G603 wireless gaming mouse can be fully configured to match your preferences. G603 comes with 6 programmable buttons including on-the-fly DPI shifting through up to 5 sensitivity settings. Use LGS to assign custom commands, configure macros (sequences of clicks and keystrokes to simplify in-game actions and quickly execute complex tasks), store configuration profiles in the onboard memory, and more.

Wireless Gaming Desktop
Pair the G603 gaming mouse with the G613 wireless mechanical keyboard to acquire the complete wireless gaming desktop solution. G613 features advanced LIGHTSPEED wireless, Romer-G mechanical key switches, programmable G-keys, and more gaming features.

Requirements:
LIGHTSPEED

- Windows® 7 or later
- macOS® 10.11 or later
- Android™ 3.2 or later
- Chrome OSTM
- USB port
- Internet access for Logitech Gaming Software (optional)

Bluetooth

- Bluetooth-enabled device
- Windows® 8 or later
- macOS® 10.12 or later
- Chrome OS™
- Android™ 5.0 or later
- Internet access for Logitech Gaming Software (optional)
