Product Specification Sheet

N950-STRIX-OC2GB

Asus STRIX Geforce GTX 950 2.0GB GDDR5 128-Bit Graphics Card

Product Overview

Asus STRIX Geforce GTX 950 GPU, 2.0GB GDDR5, 128-Bit Memory Bus, PCI-Express x16 3.0

Specifications

Overview:

ASUS STRIX GTX 950 gaming graphics cards packed with exclusive ASUS technologies, including DirectCU II with Dual Wing-Blade 0dB Fan Design for maximum air flow with 20% cooler and 3X quieter performance. This card features exclusive ASUS AUTO-EXTREME Technology with Super Alloy Power II for premium quality and best reliability. It also has GPU Tweak II with Xsplit Gamecaster, provides intuitive performance tweaking and lets you stream your gameplay instantly.

Features:

BLAZING-FAST. ARMOR-PROTECTED. SUPER-COOL.
Taken from the ancient Roman and Greek word for owl, Strix means the keenest hearing and sharpest eyesight. Strix means feeling your environment so that you detect and react to the slightest movement. Strix means survival on the very edge of instinct. Strix is in your blood, as it is in ours.

DirectCU II
Flattened copper heatpipes make direct contact with GPU surfaces so heat is dissipated more efficiently, delivering 20% cooler and 3X quieter performance with 2.8X dissipation area than reference.

Max Air Flow with 105% More Air Pressure
DirectCU II features dual 0dB fans engineered with a patented, new wing-blade design that delivers maximum air flow and improved 105% static pressure over the heat sink, while operating at 3X quieter volumes than reference cards. The 0dB fans also let you enjoy games like League of Legends® in complete silence - because the fan stops completely when the GPU temperature remains below a set level*.

AUTO-EXTREME Technology
All ASUS graphics cards are now produced using AUTO-EXTREME Technology, an industry-first, 100% automated production process that incorporates premium materials to set a new standard of quality. AUTO-EXTREME Technology ensures consistent graphics card quality as well as improved performance and longevity. This new manufacturing process is also environmentally friendly, eliminating harsh chemicals and reducing power consumption by 50%.

5-phase Super Alloy Power II

ASUS engineers have integrated premium components into their graphics card designs to reinforce overall reliability. Super Alloy Power II components greatly enhance efficiency, reduce power loss, provide 2X reduced component buzzing while under full load, and achieve thermal levels that are approximately 50% cooler than previous designs.

Tweak Till Your Heart's Content

Redesigned with an intuitive, all-new UI, GPU Tweak II makes overclocking easier and more visual than ever, while still retaining advanced options for seasoned overclockers. With one click, the new Gaming Booster function maximizes system performance by removing redundant processes and allocating all available resources automatically. XSplit Gamecaster lets you easily stream or record your gameplay right from a convenient, in-game overlay.

One-click Performance Up

- Visual effects: Boost your performance by turning off windows visual effects.
- System Services: Automatically or manually turn off windows services or process.
- Memory Defragmentation: Re-arrange & free your system memory without closing any processes.

Specifications	
Product Code	N950-STRIX-OC2GB
Graphics Engine	NVIDIA GeForce GTX 950
Bus Standard	PCI Express 3.0
OpenGL	OpenGL 4.5
Video Memory	GDDR5 2GB
Engine Clock	OC Mode - GPU Boost Clock : 1355 MHZ, GPU Base Clock : 1165 MHz
	Gaming Mode (Default) - GPU Boost Clock : 1329 MHZ, GPU Base Clock : 1140 MHz
CUDA Core	768
Memory Clock	6610 MHz (DDR5)
Memory Interface	128-bit
Interface	DVI Output : Yes x 1 (Native) (DVI-I), Yes x 1 (Native) (DVI-D)
	HDMI Output : Yes x 1 (Native) (HDMI 2.0)
	Display Port : Yes x 1 (Native) (Regular DP)
	HDCP Support : Yes
Accessories	1 x STRIX Laser Sticker
Software	ASUS GPU Tweak II & Driver
Dimensions	8.7 " x 4.9 " x 1.6 " Inch
	22 x 12.5 x4 Centimeter
