Product Specification Sheet

N970-STRIX-OC4GB

Asus Strix GeForce GTX 970 4.0GB GDDR5 256-Bit Graphics Card

Product Overview

Asus Strix GeForce GTX 970 GPU, 4.0GB GDDR5, 256-Bit Memory Bus, PCI-Express x16 3.0

Specifications

Overview:

ASUS Strix GTX 970 gaming graphics card is factory-overclocked at 1253 MHz and packed with exclusive ASUS technologies, including DirectCU II to deliver cooler, quieter, and faster performance for incredible action gaming experiences. Strix GTX 970 also features 0dB fan technology to let gamers enjoy total silence during light gameplay as well as Blu-ray movie playback free from distracting background noise. Strix GTX 970 features exclusive ASUS DIGI+ VRM with 6-phase Super Alloy Power components for enhanced durability and cooling, and GPU Tweak for overclocking and online streaming.

Features:

30% cooler. Silent gaming.
Exclusive DirectCU II cooling technology outperforms reference designs with an exclusive 10mm heatpipe that transports 40% more heat away from the GPU - a first for the industry! The design also includes 220%-larger heat-dissipation: this means performance that's 30% and three-times (3X) quieter than reference for ultra-stable hardcore gaming with very low noise. And Strix ups the ante still further with 0dB fan technology that lets you enjoy games like League of Legends® and StarCraft® in complete silence - because the fan stops completely when the GPU temperature remains below a set level.

30% less power noise and 2.5X greater durability
Acclaimed DIGI+ VRM has been applied via a 6-phase power design that uses digital voltage regulators to minimize power noise by 30%, enhance power efficiency by 15%, widen voltage modulation tolerance, and improve overall stability and longevity by 2.5 times over reference.

Real-time intuitive graphics tuning

- Shows detailed specs and actual card status with GPU-Z
- Monitoring widget provides real-time detailed multi-parameter info
- Automatically checks and updates drivers and BIOS versions

Stream online instantly

GPU Tweak streaming tool that lets you share on-screen action in real time - so others can watch live as games are played. It's even possible to add to the streaming window scrolling text, pictures and webcam images.

Specifications	
Product Code	N970-STRIX-OC4GB
Graphics Engine	NVIDIA GeForce GTX 970
Bus Standard	PCI Express 3.0
OpenGL	OpenGL 4.4
Video Memory	GDDR5 4GB
Engine Clock	GPU Boost Clock : 1253 MHz
	GPU Base Clock : 1114 MHz
CUDA Core	1664
Memory Clock	7010 MHz (GDDR5)
Memory Interface	256-bit
Resolution	Digital Max Resolution:4096x2160
Interface	DVI Output : Yes x 1 (DVI-I), Yes x 1 (DVI-D)
	HDMI Output : Yes x 1 (HDMI 2.0)
	Display Port : Yes x 1 (Regular DP)
	HDCP Support : Yes
Power Consumption	up to 225W1 additional 8 pin PCIe power required
Software	ASUS GPU Tweak & Driver
Dimensions	11 " x 5.5 " x 1.57 " Inch
	28 x 14 x4 Centimeter
