ComX Computers
Product Specification Sheet

N980TI-6GBSC+-4995

EVGA nVidia GeForce GTX980 4GB GDDR5 256-Bit Graphics Card

Product Overview

EVGA nVidia GeForce GTX980 GPU, 4GB GDDR5, 256-Bit Memory Bus, PCI-Express x16 3.0, Display Configuration: 1x DVI-I Port, 1x HDMI 1.4a Port, 3x DisplayPort 1.2, Clock Speeds: GPU: 1102MHz (Base) & 1190MHz (Boost) / Memory: 7010MHz, Features: EVGA Precision, nVidia 3D Vision/ Surround/ GPU Boost 2.0/ G-Sync/ CUDA/ PhysX/ Adaptive V-Sync/ DSR/ TXAA/ SLI, DirectX 11 (12 API), OpenGL 4.4

Specifications

Features:

NVIDIA Dynamic Super Resolution Technology
This innovative feature can deliver 4K fidelity to 1080P displays for exceptional detail and image quality.

NVIDIA MFAA Technology
MFAA delivers a 30% performance boost while maintaining smooth, high-quality edges by alternativing sample calculations across each frame and each pixel.

NVIDIA GameWorks Technology
NVIDIA GameWorks pushes the limits fo gaming by providing a more interactive and cinematic game experience and thus enabling next gen gaming for current games.

NVIDIA GameStream Technology
Stream extreme GeForce GTX PC gaming experiences to portable device like NVIDIA SHIELD with super-smooth, low-latency performance.

NVIDIA G-SYNC Ready
NVIDIA G-SYNC monitors feature rebvolutionary NVIDIA technology that eliminates screen tearing while also reducing input lag. The result is the smoothest, fastest, and most responsive gaming experience ever seen.

Microsoft DirectX 12 (feature level 12_1)
Support for the latest Microsoft DirectX API to enable next-generation gaming.

NVIDIA GPU Boost 2.0
Dynamically maximizes clock speeds based on workload and allows enthusiast-class controls such as temperature target and

fan controls, extra over-voltage headroom, and optimizations for water-cooling solutions. This allows gamers to push performance to new levels.

NVIDIA Adaptive Vertical Sync
Dynamically enable vertical sync based on your current frame rates for the smoothest gaming experience.

NVIDIA Surround Technology
With a single card you can expand your PC games across three displays in full stereoscopic 3D for the ultimate "inside the game" experience. Add in a fourth accessory display to get access to your email, web, or other applications whle you game.

NVIDIA SLI Ready
Industry leading NVIDIA SLI technology offers amazing performance scaling by implementing AFR (Alternate Frame Rendering) for the world's premier gaming solution with solid, state-of-the-art drivers.

NVIDIA CUDA Technology
Unlock the power of the GPU's processor cores to accelerate demanding tasks such as video transcoding, physics simulation, ray tracing, and more, delivering incredible performance improvements over traditional CPUs.

OpenCL Support
Supporting the latest standards in GPGPU computing.

HDMI 2.0, DisplayPort 1.2 and Dual-link DVI
Supporting up to four concurrent monitors.

PCI Express 3.0
This card is designed for the PCI Express 3.0 bus architecture, offering the highest data transfer speeds for the most bandwidth-hungry games and 3D applications. It also maintains backwards compatibility with existing PCI Express motherboards for the broadest support.

EVGA ACX 2.0 Cooling
With optimized Swept fan blades, double ball bearings and an extreme low power motor, EVGA ACX 2.0 delivers more air flow with less power, unlocking additional power for the GPU.

dB Inverter
Fans only run when necessary, and turn off during idle. This means the EVGA card is completely silent when not gaming!

Memory MOSFET Cooling Plate
Full size cooling base plate makes contact with GPU memory and mosfets, reducing temperature.

Straight Heat Pipes
Triple 8mm straight heat pipes offer better heat dissipation than bent heat pipes with reduced thermal resistance.

Preinstalled Backplate
Reinforces PCB and looks great!

OpenGL 4.5 Support
Supporting the latest standards in the OpenGL API.

Specifications

Product Code	N980TI-6GBSC -4995
Performance	NVIDIA GTX 980 Ti
	2816 CUDA Cores
	1102 MHz Base Clock
	1190 MHz Boost Clock
	194GT/s Texture Fill Rate
Memory	6144 MB, 384 bit GDDR5
	7010 MHz (effective)
	336.5 GB/s Memory Bandwidth
Interface	PCI-E 3.0 16x
	DVI-I, DisplayPort, DisplayPort, DisplayPort, HDMI
Resolution & Refresh	Max Monitors Supported: 4
	240Hz Max Refresh Rate
	Max Analog : 2048x1536
	Max Digital : 4096x2160
Dimensions	Height: 4.376in - 111.15mm
	Length: 10.5in - 266.7mm
	Width: Dual Slot
Operating System Support	Windows 10 32/64bit
	Windows 8 32/64bit
	Windows 7 32/64bit
	Windows Vista 32/64bit
Requirements	Minimum of a 600 Watt power supply.
	An available 6-pin PCI-E power connector and an available 8 pin PCI-E power connector
	Total Power Draw : 250 Watts
