Specifications

Overview:

Unleash the full power of your Android Device with the Android Mirror JUC610! j5create's Android Mirror allows you to display your Android phone on your computer. Not only can you display your Android phone on your computer, but you can magnify and rotate your phone's screen and copy and paste text between your phone and your PC. Mirroring your phone onto your PC lets you play your favorite games on a larger screen display. You can even use your keyboard and mouse to type directly on your phone or to click on any programs. You can transfer data through the file manager and receive incoming calls and text message notifications directly on your PC!

Features:

- Display your Android device screen on a Windows Computer desktop
- The Android device screen can be magnified and rotated on the Windows Computer desktop

ComX Computers
