J5 create JUE230 2x USB3.0 to Gigabit Network Adapter (Share network on 2 PCs)

Product Overview

J5 create JUE230 - 2x USB3.0 to Gigabit network adapter (for 2x NB/PC to share 1 x Gigabit network connection), with aluminium housing, 68x23x19mm - for Windows/MAC/Linux

Specifications

About this product

The j5create JUE230 Dual USB 3.0 to Gigabit Ethernet Sharing Adapter allows two Windows, macOS, or Linux computers to share a single Gigabit Ethernet connection through high speed USB 3.0 ports. Its compact aluminium housing and portable design make it ideal for offices, meeting rooms, temporary workspaces, and field technicians. Buy now from our website for a simple and reliable wired networking solution with quick delivery in South Africa.

Overview Summary

j5create JUE230 Dual USB 3.0 to Gigabit Ethernet Sharing Adapter

The j5create JUE230 is a compact USB 3.0 networking adapter that enables two computers to share a single Gigabit Ethernet connection. Designed for business users, IT professionals, technicians, and mobile workers, it provides a convenient wired networking solution without requiring an additional network switch.

Its durable aluminium enclosure offers excellent portability while maintaining reliable performance. Compatible with Windows, macOS, and Linux systems, the adapter is well suited for temporary workstations, testing environments, office deployments, training rooms, and other situations where two computers require access to one wired network connection.

Performance tier: Professional

Uses: Office networking, laptop networking, shared Gigabit Ethernet access, IT deployment, field service, temporary workstations, business travel

Overview

The JUE230 Dual USB(TM) 3.0 to Gigabit Ethernet Sharing Adapter is an innovative adapter that allows users to share a Gigabit Ethernet connection between two devices. Both Mac(RegTM) and Windows(RegTM) are supported. This device is perfect for anyone who needs a quick and easy Ethernet connection on multiple devices. With no external power needed, the JUE230 is perfect for anyone who needs an Ethernet connection on-the-go.

Description

The j5create JUE230 provides an efficient method of sharing a wired Gigabit Ethernet connection between two computers using USB 3.0 connectivity. It is designed for environments where a dedicated network switch is unnecessary or unavailable, making it an excellent choice for temporary offices, conference rooms, demonstrations, testing environments, and service technicians.

The compact aluminium enclosure offers durability while remaining lightweight enough to carry in a laptop bag. USB 3.0 connectivity provides sufficient bandwidth for Gigabit networking while maintaining simple installation. Driver support is available for Windows, macOS, and Linux operating systems, allowing the adapter to integrate into a wide variety of computing environments.

Whether used in business environments, educational facilities, or by IT professionals, the JUE230 delivers a practical networking solution that reduces equipment requirements while maintaining reliable wired network performance.

Features

The JUE230 combines portability with reliable Gigabit networking for professional users.

- Allows 2 x computers to share 1 x Gigabit Ethernet connection.
- USB 3.0 interface for high speed connectivity.
- Supports Gigabit Ethernet networking.

ComX Computers

Product Specification Sheet

- Compatible with Windows, macOS, and Linux.
- Compact aluminium housing.
- Portable design for mobile professionals.
- Suitable for office, business, and IT environments.
- Simple installation with available platform drivers.

What's in the Box

- 1 x j5create JUE230 Dual USB 3.0 to Gigabit Ethernet Sharing Adapter
- 1 x Quick Installation Guide

Specifications

Interface	
USB Port	2 x USB 3.0 Micro-B Type Female connectors
	(2 USB 3.0 cables are included)
	Backward compatible with USB3.0 / 2.0 / 1.1
Ethernet Port	10/100/1000 Base-T Ethernet RJ-45 Female connector
Transfer Rate	
Maximum Data	1000 Mbps (Half Duplex) / 1000 Mbps (Full Duplex)
Power	
Power Mode	Bus-Powered by either USB port
Support	
IEEE	IEEE 802.3az, IEEE 802.3, 802.3u, and 802.3ab, IEEE 802.3x
Modes	Supports Wake on LAN function, suspend mode and remote wakeup via link-change, Magic Packet, or Microsoft wake-up frame
	Supports IEEE 802.1Q VLAN tagging and 2 VLAN ID filtering
	Supports Jumbo Frame
	Supports Checksum Offload (IPv4, IPv6, TCP, UDP) and TCP Large Send Offload
Physical Specifications	
LED Indicators	Network Link/Activity
Housing Material	Aluminum
Dimensions	Main Body
	83 (W) x 57 (H) x 16 (D) mm
USB Cable Length	0.6M x 1pcs
	1M x 1pcs
Weight	Approximately 8.1kg
System Requirements	

ComX Computers

Product Specification Sheet

System Requirements	Microsoft Windows 8.1 / 8 / 7 / Vista / XP (32-bit or 64-bit)
	Mac OS X v10.6-v10.10
	Linux Kernel 3.x / 2.6.x
	Available USB port (USB 3.0 is recommended)
	Driver not required for Windows 8.1 / Linux 3.x / Chrome OS 3.8
	Driver will automatically install on Windows 8 / 7 / XP (Requires Internet access)
Note	
Note	Each USB port requires an independent IP address to share a single LAN resource from the connected router.

FAQ

What does the j5create JUE230 do?

The JUE230 allows two computers to share a single wired Gigabit Ethernet connection using USB 3.0 connectivity.

Which operating systems are supported?

The adapter supports Windows, macOS, and Linux operating systems with the appropriate drivers where required.

Is this suitable for laptops without an Ethernet port?

Yes. It provides Gigabit Ethernet connectivity through USB 3.0, making it useful for modern laptops that do not include a built in network port.

Who should use this adapter?

It is ideal for business users, IT administrators, technicians, training environments, temporary workspaces, and professionals requiring reliable wired networking.

What material is the enclosure made from?

The JUE230 features a durable aluminium housing for improved portability and long term reliability.
